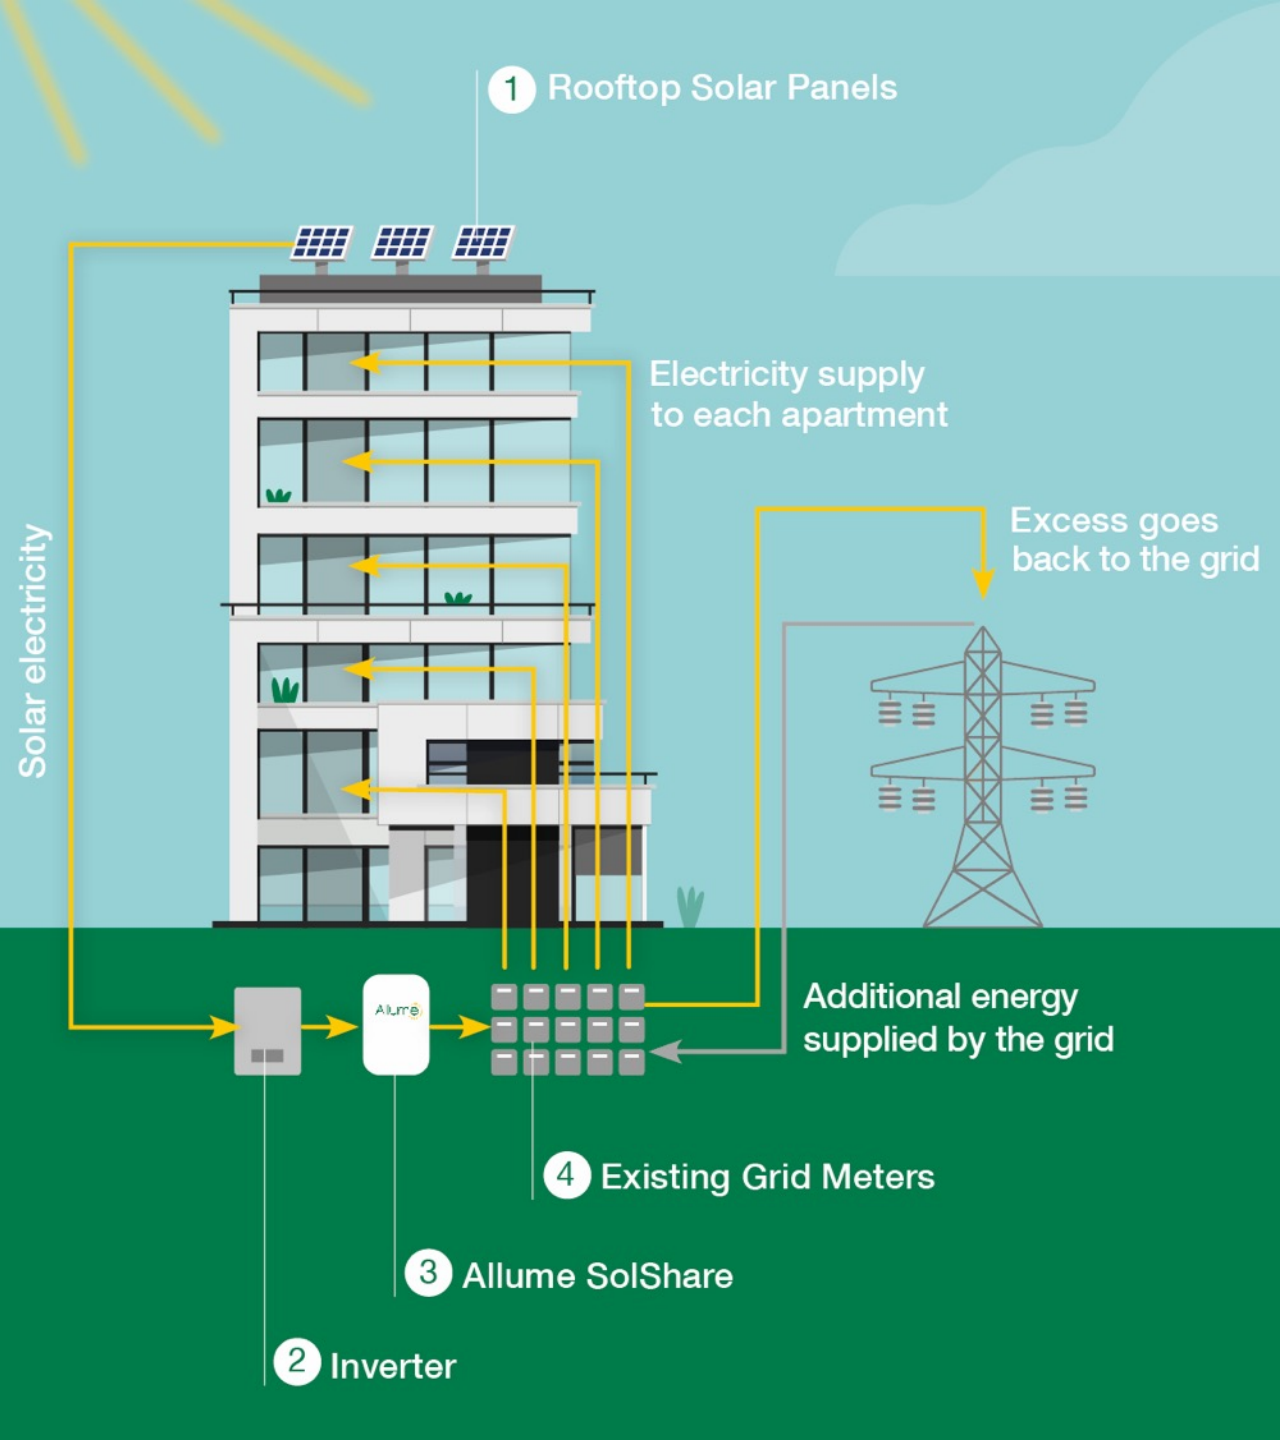
What solar solutions exist?

- Common light & power only
- Embedded Network
- Behind-the-meter solar sharing

Allume



Benefits of the SolShare

- Splits solar from a single rooftop system to multiple apartments
- Customers stay on the NEM
- Optimises solar electricity distribution to maximise onsite consumption and savings.

Allume

Case Study: Neutral Bay

- 16kW shared by 3 apartments and common light & power.
- Since 11 Feb have met 28% of electricity needs.
- Already saved $1,000 on bills.
- Payback period < 5 years.

Allume

Case Study: Brunswick East

- 12kW shared by 8 apartments, 2 shops, common.
- Met 45% of apartment electricity needs over summer.
- Apartment residents saved $111 each over summer.
- Payback period <5 years.

Allume

How to get shared solar: strata buys the system

- System bought by strata
- Allume Solar Installer Partner installs PV system + SolShare
- Residents enjoy free solar

Allume

How to get shared solar: no upfront cost

LPE®

localityenergy.com.au

- Solar installed at no upfront cost to strata or residents
- Residents opt-in to LPE as energy retailer
- Single bill for solar + grid
