

# *Eucalyptus* 'Summer Red'

## Flowering Gum

---

### Description

This is one of the new grafted cultivars with large glossy green leaves and a slightly weeping habit with spectacular red flowers

### Size

Small with open habit and rounded canopy

Maximum height: 4 to 6 metres

Maximum spread: 3 to 5 metres

### Features

Fast growing small tree that flowers in summer and occasionally throughout the year.

### Uses

- Attractive ornamental tree
- Suitable for small yards, courtyards
- Bird attractive

### Preferred conditions

Full sun. Adaptable to most soils but prefers well drained and organic. Will tolerate dry periods when established

### Availability

Most nurseries

### Other Cultivars

Similar new grafted cultivars include: 'Summer Beauty' – bright pink flowers; 'Orange Splendour' – salmon orange flowers and others
