

# *Koelreuteria paniculata*

## Golden Rain Tree; Pride of China

---

### Description

Attractive mid green foliage that becomes golden in autumn and yellow flowers that dry to a papery 'lantern shape'

### Size

Medium size deciduous round headed tree with drooping outer branches

Maximum height: 7 to 9 metres

Maximum spread: 5 to 7 metres

### Features

- Useful deciduous tree
- Slow growing with a dense habit and a rounded crown when mature.

### Uses

- Good deciduous shade tree
- Suitable for small yards, courtyards
- Colour contrast tree

### Preferred conditions

Full sun. Will underperform on shady or windy sites. Organic soils. Prefers summer moisture initially to grow well

### Availability

All nurseries
