

# *Magnolia grandiflora*

## Bull Bay Magnolia

---

### Description

Wide spreading evergreen tree with large white fragrant flowers in late spring to summer

### Size

Large ornamental tree

Maximum height: 15 to 20 metres

Maximum spread: 10 to 12 metres

### Features

- Handsome stately tree
- Slow growing with a narrow habit when young then aging to a broad domed tree
- Long lived

### Uses

- Feature tree for large areas
- Smaller cultivars may be more appropriate for urban yards

### Preferred conditions

Full sun and some protection from winds. Adaptable to most soils but prefers organic soils and reliable moisture.

### Availability

All nurseries

### Other Cultivars

Most popular cultivar is 'Little Gem' – small compact tree with large scented white flowers. Other cultivars prefer cooler areas away from the coast
