

Our services

Mobile garbage bins

We can provide one or more 240 or 660 litre mobile garbage bins for use at your premises. Depending on your requirements and location, we offer collection services up to 7 days a week.

Bins must be placed at the kerbside the night before the collection day(s) arranged with our Commercial Services team, and removed immediately after collection.

Invoices are issued monthly or quarterly as arranged.

Blue bags

If you produce waste in quantities too small to require a mobile garbage bin, we can provide pre-paid blue bags.

These bags are not for food waste or recyclables. Bags must be placed at the kerbside the night before the collection day arranged with our Commercial Services team.

Blue bags can be purchased at our Customer Service Centre, 55 Spring Street, Bondi Junction.

Recycling services

Our Commercial Services team provides you with a Yellow Lid Bin for paper, cardboard and recyclable containers including glass bottles & jars, plastics, aluminium and steel (such as cans, pots and pans). Plastic bags, waxed cardboard and styrofoam should not be placed in the recycling bin.

Garden Waste service

A weekly or fortnightly Garden Waste bin service is now available for the removal of leaves, branches, flowers and grass clippings.

Additional collections

Our Commercial Services team can provide additional collections as required. Costs incurred will be added to your account.
