

**EBSCO** provides multidisciplinary and subject-specific databases for students, researchers and librarians. Learn how to access these free academic databases today.

## EBSCO DATABASES

**AUSTRALIA/NEW ZEALAND REFERENCE CENTRE** - this database provides a thriving collection of leading regional and international periodicals, full-text reference books, full-text biographies and a collection of images containing photos, maps and flags.

Educators will find a variety of text types (source types) to enhance curriculum delivery across disciplines. Here are a few learning objectives that the content in this database can support:

### **AUSTRALIAN CURRICULUM:**

- Comprehend multi-modal texts through listening, reading and viewing
- Link and summarise information from different sources
- Identify embedded perspectives and evaluate supporting evidence

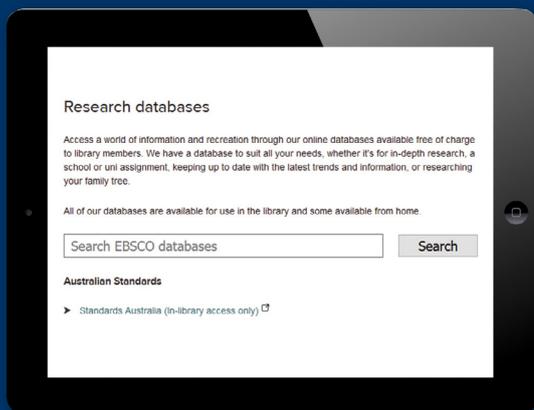

**GREENFILE** - offers well-researched information covering all aspects of human impact to the environment. Its collection includes content on global warming, green building and more.

**EBOOK PUBLIC LIBRARY COLLECTION** - offers full text titles with unlimited access featuring fiction and nonfiction titles for adults and juveniles.

**NOVELLIST PLUS** - guides and advises readers on other fiction and non-fiction titles of interest either by subject or 'read alike' - other authors who are similar to a favourite author.

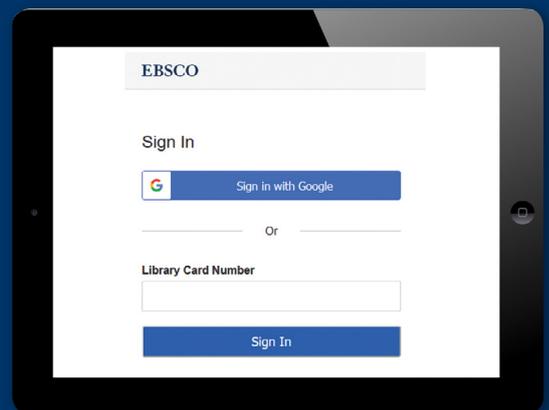

# HOW DO I USE DATABASES?

Visit [www.waverley.nsw.gov.au/services/library/explore\\_collections/e-library/research\\_databases](http://www.waverley.nsw.gov.au/services/library/explore_collections/e-library/research_databases)

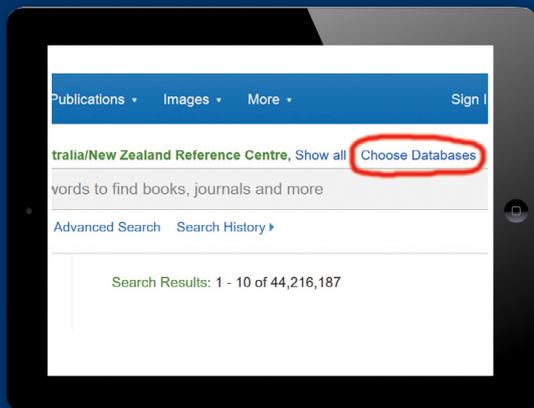

## STEP 1

Click on "**Search**" button to go to the log in page OR select the database from the list on Waverley library website eLibrary.

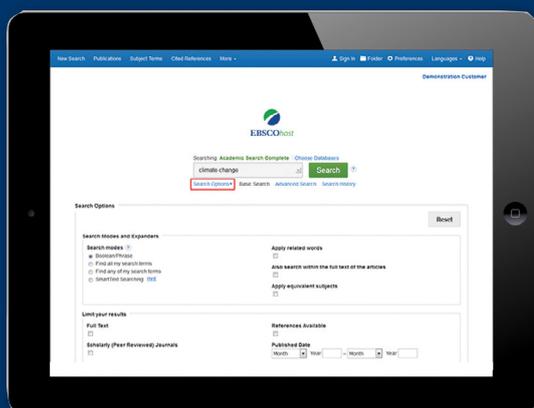

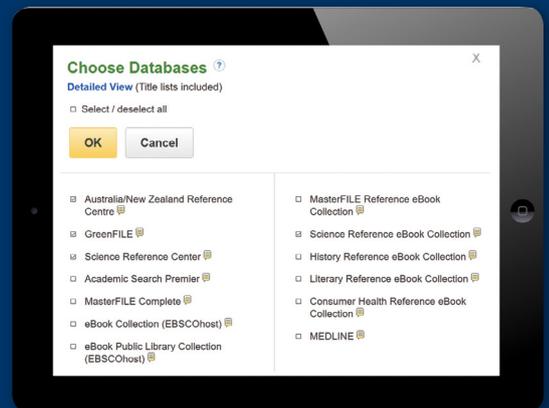

## STEP 2

Enter your library card number to log in: **Pxxxxxxxxxx**

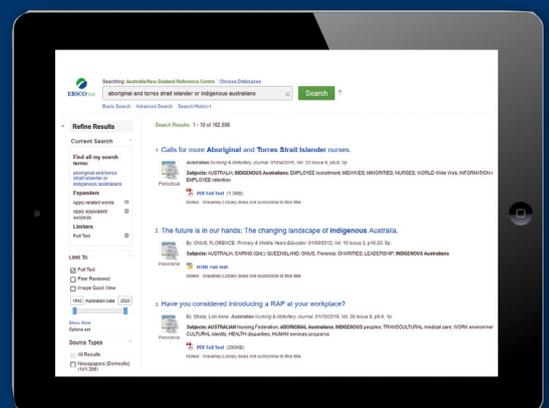

## STEP 3

Click on "**Choose Databases**" button to see the full list.

## STEP 4

Enter your search terms in the **Find** field on the **Basic Search** screen. Click the **Search Options** link, if you would like to use any of the optional Limiters or Expanders. Select a specific search mode, such as "**Find all of my search terms**," or "**SmartText Searching**." Apply Limiters such as **Full Text** or **Publication type**; or use search options that expand your search, such as "**Apply related words**."

## STEP 5

The search field is displayed above the Result List. Your search terms, limiters and expanders are retained. To revise your search, you can apply the limiters under **Limit To** on the left or click the **Show More** link to view all available limiters.
