

# SITE WASTE & RECYCLING MANAGEMENT PLAN CHECKLIST NO. 2

Made under *Waverley Development Control Plan 2006 - Part G1, Site Waste Minimisation and Management*

## TO BE SUBMITTED WITH YOUR CONSTRUCTION CERTIFICATE

This Checklist is part of your Site Waste and Recycling Management Plan (SWRMP) and will be assessed against the provisions of Waverley Development Control Plan 2006 – Part G1, Site Waste Minimisation and Management. The Part of Waverley DCP 2006 must be read before attempting to complete this checklist. This checklist will assist you in identifying the type and quantity of waste likely to be generated and how this can be minimised. The checklist will also serve to advise Council of how you intend to reuse, recycle or dispose of the waste both during construction and your ongoing waste management strategy.

**NOTE: You must retain copies of demolition and construction waste dockets on site at all times to verify which facility received the material for recycling or disposal.**

To minimise any delay in receiving a decision about your application, please ensure you submit all relevant information and answer all questions. Mark "N/A" where a question is not relevant to your development. Should you require assistance please contact Council's Customer Service Centre on 9369 8000.
