1. EXECUTIVE SUMMARY

Waverley Council's Long Term Financial Plan (LTFP 5.3) contains a set of long range financial projections based on an informed set of assumptions. It is designed to reflect the financial impacts of providing the current service levels and our programs of capital works. The LTFP 5.3 covers the 11 year time period from 2021/22 to 2031/32. This iteration of the Plan focuses on delivering community needs and Council's strategic priorities (including asset renewal).

The LTFP 5.3 indicates that Council will generate sufficient funds and has adequate reserves available to implement its programs and to achieve a balanced budget in each year throughout the planning period. LTFP 5.3 enables all asset backlogs identified in the adopted Strategic Asset Management Plan (SAMP 5) to be addressed and assets class conditions to be maintained to a standard meeting community expectations. Service delivery, organisational capability and financial stability will also be maintained.

2. INTRODUCTION

The Long Term Financial Plan (LTFP) is a core element of Council's strategic planning process. The LTFP addresses the financial resourcing capacity requirements to deliver our Community Strategic Plan 2018-2029. The LTFP enables the community's aspirations and demand for services to be tested against the financial opportunities and limitations likely to be encountered within the next 10 years, it includes financial modelling and the planning assumptions that have been identified as affecting the financial capacity of the Council. The LTFP enables the community and the Council to set priorities to meet future needs.

The projections contained in the LTFP are subject to change due to a variety of external factors as well as major decisions made by Council. It is necessary to regularly review and monitor a variety of factors, and revising the projections contained in the LTFP where necessary. The LTFP is revised annually as part of Council's annual budget process in keeping with the legislative requirements under the Integrated Planning and Reporting (IP&R) framework.

A year ago, on 11 March 2020, the World Health Organisation (WHO) officially called novel coronavirus (COVID-19) a pandemic. COVID-19 forced many countries to close their borders and lockdown cities, restrict many businesses' operations and community movements in an attempt to manage the spread of the virus spread. In this volatile and challenging times, it is difficult to predict the real magnitude of the financial impact on the economy and Council in the future. With the commencement of COVID-19 vaccine roll-out programs in Australia and around the world, the revision of this Plan assumes the impacts of the pandemic, at least in Australia, will not continue in the 2021/22 financial year. With the Australian and our local economy is transitioning into a phase of recovery.

The Plan is being prepared in an environment of heightened uncertainty given the global and national impacts of COVID-19. Incorporating assumptions on the recovery from COVID-19 is essential. Some of the key COVID-19 macroeconomic assumptions that are:

- No further lockdowns
- Economic activities returns to pre-covid levels

- Overseas tourism remains suppressed for most of FY2021/22
- Domestic tourism spending increases given international border restrictions.

Despite these challenges Council faces, Council is committed to:

- maintaining the current service delivery levels
- maintaining organisational capability,
- meeting its obligations to our staff,
- prudently managing Council's and the community's resources and assets
- reprioritising resource allocation to where they are most needed
- providing financial assistance to our local community and businesses when needed
- maintaining our long term financial sustainability while at the same time building our fiscal resilience to enable Council to respond to unexpected crises.

3. OBJECTIVES

Legislated Principles

Section 8B of the Local Government Act 1993 states that the following principles of sound financial management apply to councils:

- a) Council spending should be responsible and sustainable, aligning general revenue and expenses.
- b) Councils should invest in responsible and sustainable infrastructure for the benefit of the local community.
- c) Councils should have effective financial and asset management, including sound policies and processes for the following:
 - i. Performance management and reporting,
 - ii. Asset maintenance and enhancement,
 - iii. Funding decisions,
 - iv. Risk management practices.
- d) Councils should have regard to achieving intergenerational equity, including ensuring the following:
 - i. Policy decisions are made after considering their financial effects on future generations,
 - ii. The current generation funds the cost of its services.

The LTFP is developed to give effect to the Community Strategic Plan, deliver Council's program and aspirations over time, and provide strong stewardship for community assets and resources. It contains a set of long-range financial projections based on an informed set of assumptions.

In addition to the legislated principles of sound financial management, Waverley Council has 5 financial objectives that it applies to its financial planning, control and management.

1. **Ensure financial sustainability** - to generate its own operating revenue and having sufficient assets to serve its liabilities with the aim of achieving all of the “fit for the future” financial sustainability benchmarks.
2. **Delivery a balanced budget** - ensure that each financial year’s expenses are funded by identified funding sources.
3. **Fund existing service levels** - ensure existing service levels that council currently provide continue to be fully funded when preparing budgets and making financial decisions.
4. **Funding Infrastructure renewals** - the funding allocated to annual capital works programs to ensure all infrastructure assets meets the determined satisfactory condition level.
5. **Financial responsible** ensure costs are well-considered and money is responsibly spent. We have carefully budgeted for a range of new initiatives to ensure Waverley remains affordable and sustainable well into the future.

4. STRUCTURE

The LTFP presents financial forecasts that draw from Council’s Strategic Asset Management Plan 5 (SAMP 5), Environmental Action Plan 4 (EAP 4) and other strategic documents.

5. CURRENT FINANCIAL POSITION OF COUNCIL

Waverley Council operates at present from a sound financial position. The 2019/20 audited Annual Financial Statements reported that all but one of Waverley Council’s key ratios are performing better than the Industry Benchmark. Only the operating performance ratio in 19/20 was below its benchmark due to the impact of COVID-19 as shown in the table 1 below:

Table 1: Local Government Key Performance Measures					
Indicator	Quantitative Measure	Industry Benchmark	Waverley 2019/20	Waverley 2018/19	Waverley 2017/18
Operating Performance Ratio	Measures a Council’s ability to contain operating expenditure within operating revenue	> 0	-8.34%	0.78%	1.76%
Own Source Operating Revenue Ratio	Measures the level of a Council’s fiscal flexibility. It is the degree of reliance on external funding sources such as operating grants and contributions	> 60%	79.17%	87.13%	86.46%
Unrestricted Current Ratio	The Unrestricted Current Ratio is specific to local government and is designed to represent a Council’s ability to meet debt payments as they fall due	> 1.5x	7.22x	11.13x	10.15x

Debt Service Cover Ratio	This ratio measures the availability of operating cash to service debt including interest, principal and lease payments	> 2x	11.18x	42.77x	23.78x
Cash Expense Cover Ratio	This liquidity ratio indicates the number of months a Council can continue paying for its immediate expenses without additional cash inflow	> 3 mths	13.38 mths	15.22 mths	14.82 mths
Building & Infrastructure Asset Renewals Ratio	This ratio compares the proportion spent on infrastructure asset renewals and the asset's deterioration measured by its accounting depreciation. Asset renewal represents the replacement or refurbishment of existing assets to an equivalent capacity or performance as opposed to the acquisition of new assets or the refurbishment of old assets that increase capacity or performance.	>=100%	158.13%	82.57%	94.13%
Infrastructure Backlog Ratio	This ratio shows what proportion the backlog is against total value of a Council's infrastructure	< 2%	1.01%	1.01%	1.05%

Council in 2020/21 developed and implemented a program to assist the LGA recover from the effects of the pandemic. A Resilient Waverley – A response to COVID-19 Plan focuses on key areas where Council offered support to the local community and outlined actions to be delivered by Council that support the recovery following COVID-19. The plan has divided into two parts - **Community** that focuses on social aspects in Waverley, and **Business** that focuses on the local business community. The plan is a work in progress at the time of writing LTFP 5.3.

The 2021/22 Budget forecasts Council's operating income will be \$139.1 million, an increase of \$7.61 million (+5.8%) compared to current approved budget 2020/21. The total income is projected to be \$161.04 million, an increase of \$10.43 million (+6.9%) compared to the current approved budget 2020/21.

	2021/22 Budget	2020/21 Current Approved Budget	\$ change on 2020/21 Current Approved Budget	% change on 2020/21 Current Approved Budget
Income - \$'000				
Operating Income	139,102	131,489	7,612	5.8%
Rates & Annual Charges	67,507	66,147	1,361	2.1%
Investment Income	859	1,791	(932)	-52.1%
User Charges	45,582	39,510	6,072	15.4%
Other Revenues	19,645	18,186	1,459	8.0%
Grants Subsidies & Contributions - Operational	5,509	5,856	(346)	-5.9%
Capital Income	21,936	19,118	2,818	14.7%
Proceeds from Assets Disposal	975	546	429	78.5%
Grants Subsidies & Contributions - Capital	20,961	18,572	2,389	12.9%
Total Income	161,038	150,608	10,430	6.9%

The following chart shows the major categories of revenue for Council in 2021/22:

Rates and Annual Charges have remained at 43% of the total revenues and is the largest category of Council revenue. IPART sets the maximum allowable increases in rates each year based on a review of the Local Government Cost Index that they have developed. The maximum allowable increase for 2021/22 is at 2%.

The 2021/22 budget estimates that Council's total expenditure, excluding depreciation expense will be \$186.36 million, including loan repayments, as illustrated in the chart below.

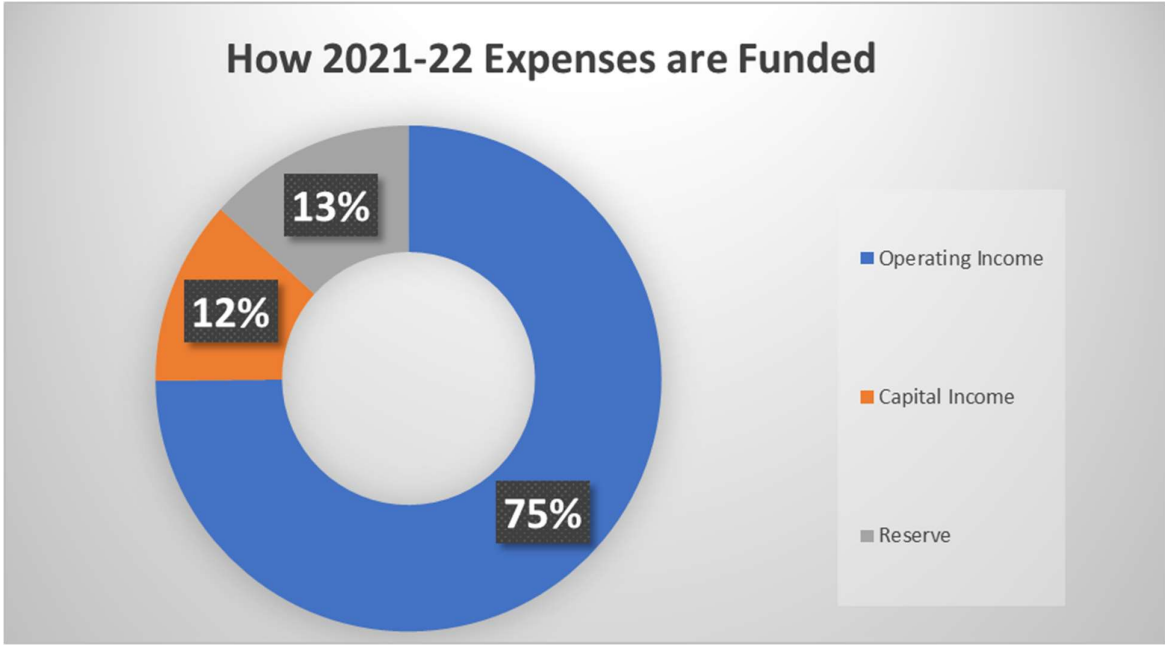

The table below reports the expense forecast for budget 2021/22 compared to the budget of 2020/21:

Expense - \$'000	2021/22 Budget	2020/21 Current Approved Budget	\$ change on 2020/21 Current Approved Budget	% change on 2020/21 Current Approved Budget
Operating Expense	(117,073)	(118,027)	954	-0.8%
Employee Costs	(70,420)	(69,170)	(1,250)	1.8%
Materials & Contracts	(22,590)	(25,965)	3,375	-13.0%
Operating Expenses	(22,863)	(21,672)	(1,191)	5.5%
Rates & Annual Charges	(1,135)	(1,143)	7	-0.7%
Borrowing Expenses	(65)	(78)	12	-15.6%
Capital Expense	(68,841)	(73,074)	4,233	-5.8%
Capital Works Program	(63,976)	(70,302)	6,326	-9.0%
Other Capital Expense	(4,864)	(2,772)	(2,093)	75.5%
Loan	(447)	(435)	(12)	2.8%
Loan Repayment - Principle	(447)	(435)	(12)	2.8%
Total Expense	(186,361)	(191,537)	5,175	-2.7%

Council projects an operating surplus before depreciation of \$22.05 million. This operating surplus will be used to fund the loan repayment and partly fund the capital works program.

The 2021/22 expense program is funded from various sources, the following chart shows the funding sources for the 2021/22 expense program.

6. LTFP ASSUMPTIONS

In developing this LTFP, projections on future financial forecasts have been based on a number of assumptions. These assumptions are explained below.

5.1 Population

The Waverley Community Strategic Plan forecasts Waverley’s population to grow from 72,700 in 2016 to 82,350 in 2036 at the high series, as shown in the following graph.

Source: DPIE, ‘LGA Population Projections’, 2016

5.2 Economic Growth

Economic growth within the local government area is expected to remain effectively static over the life of the LTFP, with limited scope for the introduction of new industries or services. Table 2 below illustrates the gross product measures for the last 10 year period between 2009 and 2019.

Table 2: Waverley Council area - Gross Regional Product measures

Year ending June	Headline GRP \$m	% change from previous year	Local industry GRP \$m	Local residents GRP \$m	Local industry to residents ratio
2019	4,952	2.9	4,837	7,520	0.64
2018	4,815	2.0	4,841	7,488	0.65
2017	4,719	-2.0	4,780	7,280	0.66
2016	4,816	2.0	4,697	7,170	0.66
2015	4,720	4.1	4,516	6,955	0.65
2014	4,533	5.8	4,398	6,720	0.65
2013	4,285	2.0	4,310	6,548	0.66
2012	4,201	1.2	4,259	6,563	0.65
2011	4,152	1.7	4,149	6,312	0.66
2010	4,081	4.7	4,081	6,129	0.67
2009	3,899	-0.6	3,845	5,874	0.65

5.3 Levels of service to the community

The LTFP is based on Council maintaining existing services to the community at the existing service levels as well as incorporating works arising from the Strategic Asset Management Plan 5, Environmental Action Plan 4 and other strategic plans.

5.4 Capital works program

Council's extensive capital works program aims to deliver much needed renewal of infrastructure assets including roads, community buildings, open space, parks & reserves and transport infrastructure. The total proposed value of works in Council's 2021/22 capital works program is \$59.94 million.

The LTFP capital works program 2021/22 to 2031/32 outlines all infrastructure renewal works arising from Council's Strategic Asset Management Plan (SAMP 5) and capital enhancements from Environmental Action Plan (EAP 4) and other strategic plans (see Appendix 1 for further detail).

The program includes a number of major capital projects, for example:

- Bondi Pavilion restoration and conservation project completion
- Bondi Junction Cycleway & Streetscape upgrade completion
- Waverley Park Indoor Cricket Nets Facility
- Council Chamber upgrade
- Campbell Parade Streetscape upgrade
- Bronte, Tamarama and Bondi surf club upgrades
- Structural renewal of Bondi, Bronte and Tamarama Promenade & sea walls

The financial projection of future capital works will depend on the nature, timing and funding of specific projects. The majority of infrastructure projects are costed in accordance with current design estimates. Any significant cost revisions in subsequent years will be reflected in the LTFP.

5.5 Debt Policy

Council's level of debt is low, with total outstanding loans of \$2.04 million as at 30 June 2022. An increase in debt will therefore be considered from time to time if it will allow Council to spread the burden of costs more equitably across current and future generations in alignment with benefits and/or reduce the growth in renewal costs that may arise from delay in investment in assets. Assuming Council has capacity to service more debt, the use of debt financing is more likely to increase during the life of this plan:

- for investments which can generate sufficient financial returns to repay the debt, or
- where cash flow issues are holding up necessary works and can be reliably resolved by loans which can be repaid in future years, or
- where it will allow Council to spread the burden of cost more equitably across generations in alignment with benefits, or
- where it represents a cost-effective method of financing in particular circumstances.

Debt is only to be considered by Council as a means of financing capital investments, not operational costs, and where there is a reliable source of income (funding source) for repayment.

5.6 Reserve Funding

Council holds limited externally restricted cash reserves, covering Domestic Waste, Housing Contribution, Stormwater Management Services Charge, Section 7.12 Fixed Developer Contributions and Section 7.4 Planning Agreement Contributions. These funds are only to be used for the purpose for which they were raised.

Internally restricted reserves include money held for such items as employee leave entitlements, bonds and deposits, vehicle replacement, infrastructure assets. These funds are to be used for the purpose for which they are held.

5.7 Revenue

5.7.1 Rates

Rate is a major source of Council's income, representing approximately 31.9% of the total revenue in the draft 2021/22 budget. This income projection is based on the Independent Pricing and Regulatory Tribunal (IPART) announced rate peg of 2% for 2021/22. The rate pegging assumption for the subsequent years are in line with the projected CPI for the life of the LTFP.

The approved annual rate pegging limit since 2004/05 is shown in the table 3 below, along with the actual rate increase adopted by Council. This table shows that over this period the average annual rate pegging limit has been 2.8%, this was higher than the average annual CPI of 2.3%. Council's average increase of 4.5% is the result of a special rate variation approved for 2011/12 to 2013/14 financial years.

Table 3: Allowable increase in Rates and CPI			
Year	Rate Pegging limit %	Waverley Council's increase %	CPI (weighted average all capital cities) %
2004/05	3.5%	3.5%	2.5%
2005/06	3.5%	3.5%	4.0%
2006/07	3.6%	3.6%	2.1%
2007/08	3.4%	3.4%	4.4%
2008/09	3.2%	3.2%	1.4%
2009/10	3.5%	3.5%	3.1%
2010/11	2.6%	2.6%	3.5%
2011/12	2.8%	14.5%	1.2%
2012/13	3.6%	13.5%	2.4%
2013/14	3.4%	12.5%	3.0%
2014/15	2.3%	2.3%	1.5%
2015/16	2.4%	2.4%	1.0%
2016/17	1.8%	1.8%	1.9%
2017/18	1.5%	1.5%	2.1%
2018/19	2.3%	2.3%	1.9%
2019/20	2.7%	2.7%	2.0%
2020/21	2.6%	2.6%	1.8%
2021/22	2.0%	2.0%	1.5%
Total cumulative increase	50.7%	81.4%	41.3%
Average annual increase (18 years - 2004/05 to 2021/22)	2.8%	4.5%	2.3%

5.7.2 Domestic Waste charges

The Domestic Waste Management charge is based on the full cost recovery for the provision of the waste and recyclable collection service. The LTFP has provided for a sufficient reserve which will be used to fund any waste bins, garbage truck and fleet equipment replacements.

5.7.3 Stormwater Management Service Charges

The Stormwater Management Service Charge (SMSC) is intended as a mechanism for NSW councils to raise income to invest in improving the stormwater systems in urban areas, under the Local Government Amendment (Stormwater) Act 2005 No70, since 2006. Waverley Council is levying this Charge for the first time since 2019/20 financial year in accordance with section 496A of the Local Government Act 1993 (the Act). The Charge is capped in the legislation and there has been no change to it since its inception.

The revenue raised from SMSC will be allocated to projects/activities in relation to capacity and water quality as well as works that arise from the Catchment Flood Study.

5.7.4 User Charges and Fees

Council provides a wide range of facilities and services for which it receives revenue from user fees and charges. Council sets its fees and charges in accordance with the provisions of the Local Government Act 1993 using the seven guiding principles defined in the "Pricing Policy" and is updated annually.

Some of the fees are classified as statutory fees which are fixed by regulations, legislation or a State/Federal Authority. Where Council has the legislative authority to vary fees and charges the CPI has generally been applied, where considered appropriate.

Often, the fee received does not fully offset the costs associated with the service or facility as they are aimed at providing a broad community benefit and if higher fees were charged many residents may be unable to enjoy the use of the facility and service. Revenue growth in these areas is limited due to Council seeking to provide services accessible to the wider community. Historically the revenue received from the majority of this group of fees and charges have increased in line with CPI. Accordingly, the LTFP model includes a projected increase for this income group in line with the projected CPI growth.

During the course of the LTFP, Council will undertake a cost of service review and a funding review. The reviews will examine the actual cost of services and how funding mechanisms align with economic principles such as who benefits, the public/private benefit split, the exacerbator/pollutor pays principle, whether there are positive or negative externalities to be addressed and what funding mechanisms are available. These reviews are likely to inform the Pricing of Services and the setting of fees and charges in the future.

5.7.5 Interest and investment revenue

All cash investments made by councils in NSW are subject to Section 625 of the Local Government Act and associated regulations and circulars. All such investments must also be in accordance with the Council's Investment Policy.

Waverley's Investment Policy limits the proportion of investments Council can make in various types of facilities by limiting:

- the overall credit exposure of the portfolio, and
- the credit rating of individual financial institutions, and
- the term to maturity of the overall portfolio.

Council's Investment Policy is reviewed on an annual basis and was last revised in June 2017. Monthly reports, prepared by independent financial advisors, on the performance of investments and compliance with the Policy are provided to Council's monthly meeting. Waverley Council's investments yielded positive returns overall in 2019/20 and exceeded the benchmark return on an annual basis.

The level of interest revenue earned will vary with regard to total funds held in Council's investment portfolio. Interest revenue is also subject to external factors such as monetary policy decision and economic and investment market conditions. Over the longer term, economic conditions can vary considerably, which in turn affect interest rate. The graph below depicts movements in the official Australian cash rate.

RBA cash rate expects to between 0.10% to 0.50% for the next several years.

In preparing longer term future interest revenue projections, Council received advice from its external investment advisers that the LTFP Projects future interest earning is between 0.5 - 0.6 point higher than the projected 90 days bank bill rate, averaging at 1.7% per annum over the next 11 years.

5.7.6 Other revenues

Other revenue increases have been projected to increase in line with projected CPI growth.

5.7.7 Grants and contributions

Council receives grants from the State and Federal Governments. These are either for discretionary or non-discretionary purposes. The majority of grants provided to Council are for specific purposes, such as infrastructure maintenance & upgrade, provision of community services and environmental programs. Grants and contributions in general are not subject to indexation.

5.7.8 Section 7.12 (94A) developer contributions

Section 7.12 of the Environmental Planning and Assessment Act 1979 enables councils to levy contributions for public amenities and services required as a consequence of development. Developer contributions are essential to providing key facilities and services for local residents. The s7.12 contributions are held as an externally restricted asset and they are allocated to fund the capital works program projects.

The level and timing of contributions fluctuate according to a variety of factors including economic growth and the level of development activity. In the LTFP, it is assumed that economic growth and development activities are relatively static throughout the life of the 11 years, recognising that there will be market fluctuations from time-to-time.

5.7.9 Section 7.4 Planning Agreements developer contributions

Section 7.4 of the Environmental Planning and Assessment Act 1979 enables councils to seek contributions for public amenities and services required as a consequence of

development. Planning Agreements can take a number of formats, including dedication of land free of cost, payment of a monetary contribution, or provision of any other material public benefit, or any combination of them, to be used for or applied towards a public purpose. The Waverley Planning Agreement Policy 2014 outlines a value sharing approach in which Council seeks a share of value uplift generated from new development which exceeds current floor space ratio controls.

Planning Agreements are a form of developer contributions, which are essential to providing key facilities and services for local residents.

The Planning Agreement contributions are held as an externally restricted asset and they are allocated to fund the capital works program projects.

The level and timing of Planning Agreement contributions for the LTFP 5.3 document fluctuate according to a variety of factors including economic growth and the level of development activity. There is a delay between when a contribution is agreed and when it is paid, given that contributions are not required to be paid until the occupation certificate is issued. Furthermore, given that Planning Agreements are voluntary in nature, this adds another level of uncertainty for the stability of this income stream. In the LTFP, it is assumed that economic growth and development activities are relatively static throughout the life of the 11 years, recognising that there will be market related fluctuations from time-to-time.

5.8 Expenditure

5.8.1 Employee costs

Employee costs include the payment of salary and wages, all leave types, superannuation, and training and workers compensation expenses. Overall employee costs comprise around 60% of Council's operating expenditure. The LTFP projection includes the Award increase of 2.0% for 2021/22 and 2022/23, and thereafter it is assumed the award rate will be in line with CPI growth.

For Council employees in the accumulation scheme, Council is required to make compulsory employer superannuation contributions in accordance with the compulsory employer superannuation contribution limits. As a result of legislative changes, this contribution will progressively increase from its current level of 9.5% to 12% in 2025/26. The current rate of 9.5% will be increased by 0.5% from 2021/22 until it reaches 12%.

For workers compensation, the budget provision is based on Council's provider insurance company's estimates for 2021/22. The subsequent year projects a gradual reduction on workers compensation in 2022/23 and 2023/24 by 30%. Thereafter it will increase in line with the forecast salary increase.

5.8.2 Materials and contracts

Expenditure on materials and contracts has generally been indexed below CPI growth by 0.5% in the LTFP forecasts.

5.8.3 Loan Borrowing Costs

Whilst inflation remains low, interest rates are forecast to also remain low. The LTFP includes an average rate of 2.59% for loans with a 10 year term. This is considered conservative as it is

slightly above forecast borrowing rates for 2021/22. This conservative position is considered appropriate.

Council has not determined any new borrowing in the LTFP at this time but has signalled that it may utilise borrowing as a funding source within the LTFP period as set out in section 5.5, Debt Policy.

5.8.4 Depreciation

The LTFP projects annual depreciation expenditure be varied on the basis of the estimated capital expenditure levels in future years.

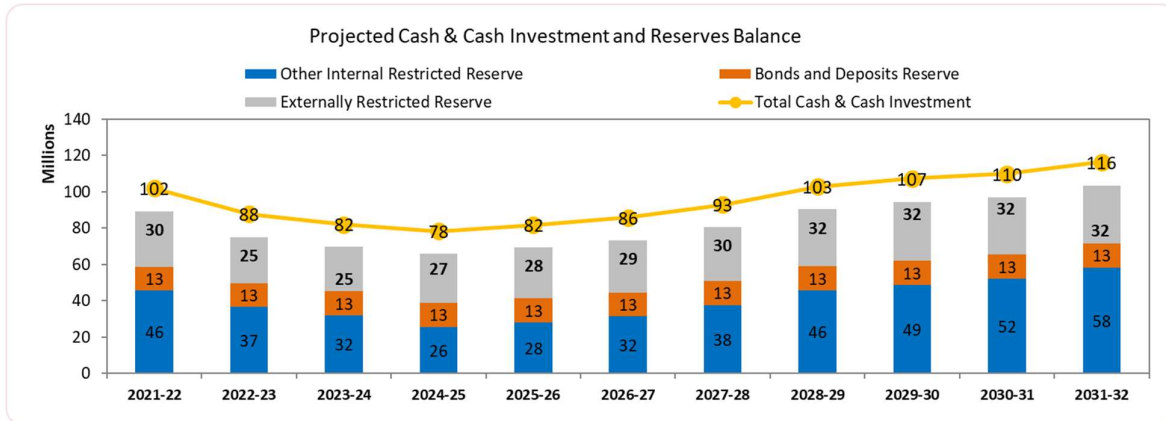

5.8.5 Other operating expenses

Generally, the LTFP projects the majority of items categorised as other operating expenses to increase in line with CPI. It should be noted that some expenses are cyclical in nature (for example, conduct of a council election every four years in general) or tied to grant funding which is not increased by CPI.

7. PROJECTED BUDGET RESULTS

In the LTFP, Council will continue to deliver a balanced budget supported by an operating surplus before depreciation. This will cumulate to a surplus of \$251K for the 11 years to 2031/32. The internal restricted reserves have been consumed to fund Council’s program spending throughout the LTFP period. It is sensible to hold a reasonable level of reserve funds to be responsive to unforeseen needs and to meet its priorities, as illustrated in the graphs below:

The LTFP is obviously not just about whether the budget will balance on a year by year basis. It is about ensuring Council’s financial sustainability remain over the longer term. The table below details Council’s performance against the “Fit for the Future” financial indicators and the Local Government Industry benchmarks. All financial indicators are performing well against said benchmarks. However, we can see that Council’s operating performance ratio is riding a knives edge over the term of the LTFP 5.3.

Year	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29	2029-30	2030-31	2031-32	benchmark
Operating Performance ratio	0.0%	0.1%	0.4%	0.0%	0.1%	0.2%	0.8%	1.0%	1.0%	1.7%	1.8%	> 0%
Own Source Operating Revenue ratio	83.4%	87.9%	88.3%	87.6%	87.1%	89.1%	90.8%	91.9%	91.1%	93.2%	93.7%	> 60%

Council has a robust process to ensure all infrastructure assets are maintained to the community satisfactory condition level, see the Strategic Asset Management Plan (SAMP 5) on Council’s website, for further detail. The Council will maintain a backlog ratio below the benchmark of two percent as set out by the Office of Local Government.

This iteration of the LTFP, the capital works program we propose to invest in over this planning period totalling to \$369M, with a projected \$78M grants income to funding the capital works program, as summarised in table 6 below. Refer to Appendix 1 for further detail.

Programme Description - \$'000	11 years (2021-22 to 2031-32)		
	Expense	Grants/ Contributions Income	% of grant funding
Building Infrastructure	111,184	15,063	13.5%
Living Infrastructure	11,780	840	7.1%
Parking Infrastructure	5,350	0	0.0%
Public Domain Infrastructure	79,887	31,863	39.9%
Recreational & Public Spaces Infrastructure	29,007	3,699	12.8%

Table 6 – LTFP 5.3 Capital Works Program	11 years (2021-22 to 2031-32)		
Programme Description - \$'000	Expense	Grants/ Contributions Income	% of grant funding
Road Infrastructure	120,579	35,653	29.6%
Sustainability Infrastructure	5,178	496	9.6%
Information Communication Technology Strategy (ICT)	5,580	0	0.0%
Total	368,546	78,405	21.2%

Financial Results

The LTFP forecasts that Council will successfully manage the financial sustainability challenges while sustaining Council's current level of operations and capital program up to 2031/32. Internal restricted reserves are forecasted to be responsibly utilised to fund Council's program spending and balance the budget in a manner consistent with the purpose for which they were raised.

The annual review of the LTFP allows Council to vary its approach to sustainable financial management as it progresses through the planning period.

Like all councils, Waverley accesses funds through variety of sources including:

- Rates and other levies/charges
- Fees and Charges
- Loans
- Grants
- Council also has the ability to apply reserves.

Council also continuously reviews its operations with the aim to achieve cost efficiency improvements.

8. PRODUCTIVITY AND EFFICIENCIES

In preparing the 2021/22 budget, Council has committed to undertake a thorough review of Council services in order to improve the productivity and efficiency of our operation, as well as containing costs and exploring additional revenue streams to deliver existing and improved service levels. \$1.2 million of operational efficiencies been built into the 2021/22 budget. Council Staff are currently working through several initiatives that will assist in managing financial sustainability. These include:

- Council wide service reviews
- Employee Leave Management strategies
- Review of the Domestic Waste Charge and its application
- ICT strategy and resulting process and productivity efficiencies
- A WH&S improvement program to reduce the workplace injuries.

It is estimated that the benefits of these programs will provide a \$14.5M financial benefit across the period of this LTFP. These productivity efficiencies will offset rising costs over the life of the LTFP.

9. OPPORTUNITIES AND THREATS

In projecting Council's future financial position, a number of anticipated future challenges that may have an adverse impact on Council have been considered. These are summarised below.

- **Rate pegging:** NSW councils are subjected to rate pegging. Rate pegging is the maximum percentage limit by which NSW councils may increase the total income they receive from rates. The rate pegging percentage is set each year by IPART. A general observation that rate pegging has constrained the capacity of NSW councils to raise total revenue so that they can keep pace with cost increase and service expansions to meet community expectations. Decisions on rate pegging and rate variations above the peg can therefore pose a significant threat to the modelled financial outcomes. Waverley's experience is that rates revenue generates approximately 31% of the total revenue.
- **Non-rates revenue:** The Council is heavily dependent on variable non-rates sources of revenue, these represents over 56% of the total revenue. Many of these income items are volatile to economic conditions, e.g. the building construction market, property rental market.
- **Parking Income:** Income from parking fees and fines account for approximately 19% of Waverley's total income. Market conditions and Council's policies on public parking will have significant implications for Waverley's long term financial outlook.
- **Cost shifting from Federal and State Governments:** Cost shifting is a challenge confronting Local Government. Cost shifting occurs when there is a transfer of services from a Federal or State Government to Local Government without the provision of adequate funding required to provide the service. The LTFP assumes the current cost will increase annually by CPI, but no growth in cost shifting in the life of the LTFP.
- **Developer contributions:** In 2005 the Environmental Planning and Assessment Act was amended to introduce, among other things, a system for the negotiation of planning agreements between developers and planning authorities. The increased use of planning agreements, as well as changes in the application of section 7.12 (formerly S94A) contributions, have positively impacted on the Council's long term financial outlook. This income stream accounts for approximately 6.5% of Council's total revenue. The contributions can be significantly affected by construction market conditions.
- **Direct labour costs:** All councils in NSW, except the City of Sydney, are covered by the Local Government State Award which is centrally negotiated and largely beyond Council's control. Direct employee costs (namely salaries/wages, superannuation, leave and overtime) represent over 60% Council's operating expenditure (when depreciation is excluded). Salary/wage rates struck under the Award negotiations can have a significant impact on financial outcomes, especially when the Award increase is above rate pegging. This has the potential to significantly affect the reliability of the funding model.
- **Workers' compensation costs:** Variations in workforce safety performance pose a significant risk to the budget. In 2021/22 budget year, the workers compensation premium

is estimated to be \$3.1 million. Council is undertaking a program of improvements in WH&S in an effort to improve workplace safety. This improvement will result in premium reductions in the medium term. The LTFP assumes that our workers compensation premiums will be gradually reduced in the next two years by 30% from the 2021/22 level. However, threats to this may arise, due to Council's ageing workforce and our high exposure to manual handling areas - e.g. in childcare, resource recovery and open spaces, etc.

10. SENSITIVITY ANALYSIS

Council's LTFP covers an 11 year period based on assumptions regarding future financial trends. These assumptions include future rate variation limits (i.e. rate pegging), increase in CPI and employment costs. Many of these factors can fluctuate over time as they are influenced by a variety of circumstances, such as government policies, economic conditions and changing community expectations. As it is not possible to accurately predict movements in these factors in individual years over the long term, they have been projected on the basis of recent trends or forecasted CPI based on available information in the time when the plan is prepared. A full list of the assumptions underlying the projections in the LTFP is contained in Appendix 2.

Over an 11 year period, these assumptions may be subject to change outside the parameters used in developing the assumptions for the LTFP. Any major change in these assumptions will have an impact on the financial projections contained therein. The level of impact depends not only on the level of change but also on the nature of the assumption.

A minor variance in some of the assumptions will have a relatively small impact on the projections contained in the LTFP. For example, increases in the level of grant income received for specific purposes would result in a corresponding increase in expenditure. Conversely, a change in the annual rate pegging limit or employee award rate will have a significant impact on future financial projections. Sensitivity analysis has been undertaken to assess the impact of changes in the factors which have been used to project future revenue and expenditure.

Sensitivity analysis involves developing different scenarios by varying the critical assumptions, such as the items described in the Opportunities and Threats section above. The different scenarios demonstrate the impact of these changes on Council's financial projections. Table 7 below examine the financial impact of those items:

Table 7: Positive & Negative Effects of Modelled Sensitivities on Financial Outcomes for LTFP 5.3				
Item	Optimistic Scenario		Pessimistic Scenario	
	Positive effect on modelled results - \$'000		Negative effect on modelled results - \$'000	
Rate Peg	Increase higher than current projection by 0.3%	9,094	Increase lower than current projection by 0.3%	(8,932)

Table 7: Positive & Negative Effects of Modelled Sensitivities on Financial Outcomes for LTFP 5.3

Item	Optimistic Scenario		Pessimistic Scenario	
	Positive effect on modelled results - \$'000		Negative effect on modelled results - \$'000	
Planning Agreement contributions	Increase due to achieving additional 20% of the current projection	2,381	Achieve only 20% of the current projections	(2,381)
S7.12 contributions	Realised at current projection	0	Reduce due to growth less than projected	(21,834)
Staff Award rate	Increase lower than CPI by 0.5% for the next agreements	21,688	Increase higher than CPI by 0.5% for the next agreement	(22,342)
Grant Income	Realised at current projection	0	Grant for capital works program projects is lower than the projected level by 40%	(23,255)
Staff turnover rate	Consistent with current rate	9,230	Staff turnover rate improve	0
Rental Returns	Additional revenue from the Strategic Property Review	4,897	Realised at current projection	0
Bondi Pavilion	At Break Even level	5,983	Realised at current projection	0
Parking Revenue	Revenue increased by 10%	28,460	Revenue decreased by 10%	(28,460)
Temporary Positions	Realised at current projection	0	Continue after the current term expiry	(8,678)
Covid-19 Impact	Realised at current projection	0	Reduction of Income	(6,000)
Total		81,732		(121,882)

The following graph demonstrates the impact of the sensitivities when applied to the Council's LTFP 5.3. Obviously, the pessimistic case for Council would not be financially sustainable and would require major changes to our expenditure to rectify the situation dramatically impacting our operations and capital plans.

This emphasises the need for council to be financial vigilant and continually monitoring the performance of council.

A base model, optimistic and pessimistic model have been considered in the sensitivity analysis, see Appendix 3, 4 and 5.

11. MONITORING FINANCIAL PERFORMANCE

It is important that Council regularly assesses its financial performance and position against the projections contained in the LTFP. The planned model has been developed so that its implementation will meet a set of financial indicators:

- Balanced Budget
- Operating Performance Ratio
- Own Source Operating Revenue Ratio
- Unrestricted Current Ratio
- Debt Service Cover Ratio
- Cash Expense Cover Ratio
- Infrastructure Backlog Ratio

The annual budgets are set to maintain service delivery, organisational capability and financial stability and responses to the after COVID-19 pandemic. Budget control and monitoring is paramount for Council achieving the outcomes of this plan. Budgets are monitored internally on an on-going basis. Monthly financial reports are reported to the Executive Leadership Team (ELT) and Quarterly Budget Reviews are reported to Council and illustrate the progress against the adopted budgets.

12. CONCLUSION

Council has a strong record in responsible financial management and a clear plan for continuing this track record to achieve the productivity and efficiency targets set in this LTFP through a thorough review of Council's services.

The Council will continue to operate within the principle of a balanced budget and strive to provide excellent services to its community. The Council will evaluate its performance as it works through the LTFP planning period, as has a range of options to allow it to manage financial sustainability.

Election cost every four years (cost increase by 8%)

486,000

524,880

Fleet replacement program

To achieve net zero emissions by 2030, Council fleets are to transition to electric vehicles.

Expense Cease

Temporary positions cease as per their expiry date where applicable

2021/22 identified unfunded positions will continue to be unfunded in the subsequently years

Grafton Street Office cease after the current lease expires

LTFF 5.3 - Sensitivity Analysis

Optimistic Assumptions

1. Rate peg is higher than current projection by 0.3%;
2. S7.4 Planning Agreements income increase by 20% due to growth in building development
4. Staff Award rate is lower than CPI by 0.5%;
5. Consistent staff turnover rate, hence, the step progress increase is not required.
6. Improved rental returns from the Strategic Property Review which will generate additional \$500,000 p/y from 2023/24 and CPI then onwards
7. Bondi Pavilion operating model breakeven after depreciation
8. Parking revenue increase by 10%

Pessimistic Assumptions

1. Rate Peg is lower than current projection by 0.3%;
2. S7.4 Planning Agreements income reduce by 20%
3. S7.12 Fixed Developer Contributions (s94A) reduce by 20% due to growth less than projected
4. Staff Award rate is higher than CPI by 0.5%
5. Grant income is lower than the current projected level by 40%
6. Temporary positions continue after the current term expiry.
7. Parking revenue reduce by 10%
8. Covid 19 impact of reduction of income in 21/22 by \$6m
