An aerial photograph of a city, likely Vancouver, showing a dense urban landscape with numerous high-rise buildings and residential areas. A large body of water is visible in the upper left, and a highway runs through the lower left. The entire image is overlaid with a semi-transparent blue filter.

Section 01.

**INTRODUCTION
AND TYPES OF
DEVELOPMENT**

INTRODUCTION AND PURPOSE OF THIS DOCUMENT

This guide has been prepared to provide information to applicants regarding Development Applications. Further information regarding the Development Assessment process can be found on Council's website.

The guide is to be read in conjunction with the Waverley Development Control Plan 2022 (WDCP2022), and the Waverley Local Environmental Plan 2012 (WLEP2012).

WHAT IS A DEVELOPMENT APPLICATION

A Development Application (DA) is an application made to Council seeking consent to carry out a proposed development. The development standards and controls for a DA are largely set by Council as well as the NSW Government. Certain requirements can be varied if it results in a development which achieves the objectives of the controls and an improved outcome for a site.

A Complying Development Certificate (CDC) is a fast-tracked approval process that can be used for straightforward developments which have minor environmental impacts. If an application meets specific CDC criteria, it can be determined by Council or an accredited certifier. Requirements for CDCs are set by the NSW Government and apply across

the state. These requirements cannot be amended for individual developments.

Exempt development involves minor development that, subject to certain criteria, does not require any approvals. This criteria is also set by the NSW Government and applies across the state.

Applicants are advised to engage an urban planner and architectural professional to provide advice on:

- Whether the proposed development is permissible in the zone;
- Whether a DA is required, or if it the proposal may be 'exempt' or 'complying' development instead; and
- Whether the proposal will meet Waverley's plans, codes and policies.

WHEN IS A DEVELOPMENT APPLICATION REQUIRED

A DA is required for most development within the Waverley Local Government Area. The Environmental Planning and Assessment Act 1979 (EP&A Act 1979) defines development as:

- Demolishing a building or structure;
- Building a residential, commercial or industrial building;
- Making an alteration or addition to a residential, commercial or industrial property;
- Subdivision; or
- Changing the use of a building.

It is the applicant's responsibility to ensure that the relevant planning controls and policies have been identified and satisfied. A DA can be approved by the Waverley Local Planning Panel, the Sydney Eastern City Planning Panel, or the NSW Government, and is assessed in accordance with the development standards established by Council and the NSW Government. If Council, or another determining body, is satisfied with the proposal, development consent for the DA may be granted.

Applicants can obtain a Development Application Pack from Council's Customer Service Centre or alternatively, all relevant forms are available via Council's Website. Council's Customer Service Centre can provide information on DA fees payable, either in person or over the phone.

INTEGRATED DEVELOPMENT

Some development requires approval from another government agency. This is referred to as 'integrated development.' The DA application form lists different activities that may be integrated development.

Please refer to Section 4.46 of the EP&A Act 1979 for more information.

Section 02.

**HOW TO PREPARE
AND LODGE A
DEVELOPMENT
APPLICATION**

The following process should be followed when preparing and lodging a DA:

1. SEEK ADVICE AND INFORMATION

Council's Duty Planning Officer can provide information on how to locate the planning policies and procedures that may be relevant to a development, however they will not provide design or planning advice, as there is a separate formal process for this (explained below). To contact Council's Duty Planning Officer, call 9083 8484 or email your detailed enquiry to duty.planner@waverley.nsw.gov.au.

Applicants are encouraged to seek planning and design advice from an architectural or planning professional to understand the suitability of the proposal for the site.

2. HAVE A PRE-LODGE MEETING

Some large, complex or sensitive developments may benefit from a pre-DA meeting to discuss likely issues and impacts of the proposed development prior to the assessment of the proposal.

This type of application requires less documentation and supporting information than a DA and provides written advice, identifying issues and a preliminary opinion on the merits of a proposal from senior development assessment staff. This is usually only necessary for significant development proposals or where substantial variations

from development controls are being sought or for complex development sites.

Pre-DA consultations cannot determine the outcome of an application and do not bind Council to the advice given. However they do provide useful early advice regarding a proposal and can help in determining whether to proceed with an application. This service is available subject to a fee.

3. PREPARE DA DOCUMENTATION

Your application documentation should include:

- Administrative information including application forms and DA checklist available from Council's website.
- Drawings, models and diagrams to communicate the proposed development.
- A Statement of Environmental Effects.
- Additional supplementary reports and documentation as outlined in Documentation Requirements listed later in this guide

4. LODGEMENT REQUIREMENTS

- As of 1 January 2021, Waverley Council can only accept Development Applications via the NSW Planning Portal. This can be done from your home or office, or the computer available

at Council's Customer Service Centre for you to use the online service.

- Contact Service NSW on 1300 305 695 if you need assistance using the online NSW Planning Portal service.
- An invoice for DA fees will be emailed to the applicant once the application has been checked for completeness. Call Council's Planning Counter (9083 8000) to request a fee quote.
- Customer Service Centre: 55 Spring Street, Bondi Junction Mon – Fri, 8.30am-1pm and 2pm– 4pm. (02) 9083 8000

POLICIES AND PLANNING CONTROLS

After determining whether a DA is required, the second step is to find out what policies and planning controls apply to the development.

ENVIRONMENTAL PLANNING INSTRUMENTS

Environmental Planning Instruments are statutory plans made under Part 3 of the Environmental Planning and Assessment Act 1979 that guide development and land use. The two main instruments used in the assessment of development applications are: the Local Environmental Plans (LEP) and a range of State Environmental Planning Policies (SEPPs).

State Environmental Planning Policies (SEPP)

State Environmental Planning Policies (SEPPs) are prepared by the state government and specify planning controls for certain areas and/or types of development. The NSW Legislation website provides a list of SEPPs that may be applicable to development within the Waverley Local Government Area. These policies typically override the provisions in an LEP.

Waverley Local Environmental Plan (WLEP)

This is the principal legal document controlling development within the Waverley Council Local Government Area. It contains information on how land is zoned, what uses are permissible in the zone, and development standards to regulate the extent of development. The WLEP also includes provisions to conserve heritage and the natural environment.

WAVERLEY DEVELOPMENT CONTROL PLAN

The Waverley Development Control Plan (DCP) is prepared by Council and provides information and controls relating to the design and planning of developments. The DCP provisions are structured into two components: objectives and controls. The objectives provide the framework for assessment under each control and outline key outcomes that a development is expected to achieve. The controls contain both quantitative and qualitative provisions. All DA proposals are required to address both the relevant objectives and controls.

GUIDELINES AND COUNCIL POLICIES

There are various guidelines and policies that are appropriate for different types of development available on Council's website including:

- Developer Contributions Plan 2006
- Planning Agreement Policy 2014
- Coastal Risk Management Policy
- Tree Management Policy
- Public Art in the Private Domain
- Waverley Heritage Policy
- Inter-War Factsheets
- Public Domain Technical Manual 2017
- Creative Lighting Strategy
- Water Management Technical Manual
- Social Impact Assessment Guidelines 2022

OTHER STANDARDS AND LEGISLATION

All DAs are expected to comply with:

- Any legislation relevant to the application, for example the Disability Discrimination Act 1992;
- Roads Act 1993;
- The Building Code of Australia (BCA) and National Construction Code (NCC); and
- Relevant Australian Standards (AS).

PLANNING CERTIFICATES

A Planning Certificate (issued under Section 10.7 of the EP&A Act 1979) provides information including land zoning and development standards and controls applicable to a site. Planning certificates can be obtained through Council.

ADVISORY AND DETERMINATION PANEL

A DA may be submitted to a range of panels for either advice or determination.

DESIGN EXCELLENCE ADVISORY PANEL

The Waverley Design Excellence Advisory Panel undertakes reviews of development applications (DA's) and Pre-DA's and provide advice to Council staff and the determining authority (Waverley Local Planning Panel or Sydney Planning Panel).

The Design Excellence Advisory Panel is made up of a pool of professionals, independent of Council, with expertise in architecture, landscape architecture, urban design and heritage. Not all applications will be referred to the advisory panel, but the following applications will generally be referred;

- Applications required to be assessed against SEPP 65.
- Significant developments (developments with a value of \$20m +).
- New multi dwelling housing, residential flat buildings and other residential buildings (including but not limited to boarding houses, student housing and serviced apartments), mixed use developments, commercial and retail buildings and institutional buildings;
- Significant alterations and

additions to buildings in the B1 (Neighbourhood centre), B3 (Commercial core) and B4 (Mixed Use) zones

- Site specific development control plans, master plans for large or major sites and planning proposals.
- Other matters deemed suitable by Council's senior planning staff and managers.

Applications which are referred to the Design Excellence Advisory Panel incur an additional fee. Additional copies of plans will be required to be submitted for the Panel for review. Please refer to the DA checklist for submission requirements.

WAVERLEY LOCAL PLANNING PANEL

The Waverley Local Planning Panel determines significant DAs as stipulated by the criteria set by the Minister for Planning.

The Panel is made up of a pool of planning experts, independent of Council, who meet monthly. Councillors are no longer be involved in the decision-making process for determining those DAs, allowing them more time to focus on strategic planning issues, such as the planning controls that underpin DA decisions.

The following matters will be referred to the Waverley Local Planning Panel for determination:

1. DA that receives 10 or more unique objections or
2. Development that contravenes a development standard imposed by a planning

instrument by:

- more than 10% or
 - non-numerical development standards.
3. Designated development
 4. Residential Flat Building, 3 or more storeys in height
 5. Demolition of a heritage item
 6. Development for the purposes of new premises that will require:
 - a club licence or
 - a hotel (general bar) licence or
 - an on-premises licence for public entertainment venues
 7. Development for the purpose of sex services premises and restricted premises
 8. DAs for which the developer has offered to enter into a planning agreement.
 9. Development for which the applicant or landowner is:
 - the council
 - a councillor
 - a member of staff who is principally involved in the exercise of council's functions under the EP&A Act
 - a member of Parliament or
 - a relative of one of the above.
 10. Development Applications that, in the opinion of the General Manager or Director Waverley Futures or delegate should be determined by the Panel for public interest reasons.
 11. Applications for review of a decision or modification of a condition made by the Development and Building Unit (DBU) where the DBU does not support the application.

12. Applications for review of decisions or modification of a condition made by the Panel where:
- In the case of Section 8.2 reviews of refusals, all applications determined by the Panel or Development Control Committee; and
 - In the case of Section 4.55 modifications of conditions of a determination made by the Panel or Development Control Committee, where the condition required a design or other change relating to a development standard or unresolved objection.

SYDNEY EASTERN CITY PLANNING PANEL

The Sydney Eastern City Planning Panel:

- determines regionally significant DAs, certain other DAs and s4.55(2) and s4.56 modification applications.
- acts as the Planning Proposal Authority (PPA) when directed.
- undertakes rezoning reviews.
- provides advice on other planning and development matters when requested.
- determines site compatibility certificates under the State Environmental Planning Policy (Housing) 2021
- determines regional development, as outlined in Schedule 6 of the State Environmental Planning Policy (Planning Systems) 2021
- determines development with a capital investment value (CIV)* over \$30 million

- determines development with a CIV* over \$5 million which is:
 - council related
 - lodged by or on behalf of the Crown (State of NSW)
 - private infrastructure and community facilities (including but not limited to: affordable housing, child care centres, community facilities, correctional centres, educational establishments, group homes, health services facilities or places of public worship)
 - eco-tourist facilities
 - extractive industries, waste facilities and marinas that are designated development,
 - certain coastal subdivisions
 - development with a CIV* between \$10 million and \$30 million which is referred to the Planning Panel by the applicant after 120 days.

* Capital investment value (CIV) is calculated at the time of lodgement of the DA for the purpose of determining whether an application should go to a Planning Panel - refer to Planning Circular PS 10-008.

Developments which meet State Significant Development criteria are not determined by the Sydney and Regional Planning Panels.

It is the responsibility of council to carry out a proper and professional assessment of a proposal for a Panel's determination of a relevant DA. This will include the public exhibition of the application and assessment of submissions received.

The public panel meeting is an important part of the determination process for a DA. The purpose of the meeting is for the panel to hear those who wish to express their view on a DA

before a decision is made.

The Planning Panel's Operational Procedures provide more detail the role of councils and the panel.

NSW GOVERNMENT

The Minister for Planning is the consent authority for State Significant Development (SSD) applications. SSD applications are assessed by the Department of Planning and Environment. In some cases, the Minister may delegate the decision making function to Department staff.

In addition, if an SSD proposal is not supported by the relevant local council(s), or the Department has received more than 25 public objections, the Department's recommendation is referred to the independent Planning and Assessment Commission (PAC) for determination.

Section 03.

**DEVELOPMENT
APPLICATION
REQUIREMENTS**

INTRODUCTION

The statutory requirements for supporting information to accompany a Development Application (DA) are established in Schedule 1, Part 1 of the Environmental Planning and Assessment Regulation 2000 (the Regulation). The additional information outlined below ensures the level of detail provided is adequate to assess each DA and will not lead to delays in the processing of an application.

It is recommended that applicants seek the services of professional architectural and urban planning consultants for guidance and assistance. The required skills and expertise will vary depending on the nature and scale of a development.

In some circumstances it may be appropriate to seek advice before lodging a DA through Council's formal Pre-DA process, the requirements of which have been explained earlier in this guide.

This section details all the documentation requirements for each type of development application.

MAPPING INFORMATION

Council provides an Online Mapping Tool - Planning Map available at:

http://www.waverley.nsw.gov.au/building/planning_a_development/online_maps

The tool enables users to gather planning related information about their property, using various 'layers.' The tool has multiple layers that can be applied, to

provide information about a property. Where a layer is to be used to determine whether a Documentation Requirement applies, the layer is entitled 'OMT Layer: Layer Name.'

Where this tool is relevant to development controls, the map and layer is identified throughout the WDCP2022 in the format of the box shown below.

Waverley Online Mapping Tool

planning.waverley.nsw.gov.au/connect/analyst

Layer	Geotechnical Hazard
	Coastal Inundation

Note: Council aims to ensure that the data on the Online Mapping Tool is correct and up to date at all times. In the case of a discrepancy between the WLEP2012 or another Environmental Planning Instrument and the Online Mapping Tool, the WLEP2012 or Environmental Planning Instrument available on the NSW Legislation website is to take precedence.

DOCUMENTATION DETAILS

The following information is required on all drawings:

- Title Block showing:
 - Name of Architect or Draftsman
 - Plan/Drawing number and date
 - Amendment number and date (where relevant)
 - Applicant's name
 - Address of property
- Orientation – Include a north point (true north) on plans.

- Scale – Show a ratio and bar scale. Use a standard scale of 1:50 or 1:100 when printed on A3. A scale of 1:200 may be used for the site plan, and 1:500 for the site context.
- Levels – Plans and elevations must show levels relative to Australian Height Datum (AHD)
- BASIX requirements
- Colours – Differentiate proposed alterations and additions from the existing building and any demolition.

All other documents must provide the following information:

- Author of document
- Professional qualifications to prepare the document (where relevant)
- Preparation date
- Amendment number and date (where relevant)
- Applicant's name
- Address of property

DOCUMENTATION REQUIREMENTS

The following table identifies the documentation requirements for all types of DAs. The level of detail included depends upon the size of the proposal and the likely environmental impacts. Where the proposal raises particular issues, it may only be necessary to submit details relevant to those issues. After receiving a DA, an applicant may be requested to provide additional information if necessary for the determination of the application.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
All forms and checklists are available at waverley.nsw.gov.au		
DA Form & Checklist	All Development Applications	Requires owners consent (and the owners corporation seal where applicable) and brief description of the proposal.
Political Donations and Gifts Disclosure Statement	As required under Section 10.4(4) of the EP&A Act 1979.	Provides for the disclosure of relevant political donations or gifts as per Section 10.4(4) of the EP&A Act 1979. See: legislation.nsw.gov.au
Form for Non-Residential Development	All new or change of use for non-residential development.	Prompts what additional information is required regarding the management of the proposed use.
Compulsory Documentation		
Survey Plan	All development excluding minor alterations and additions.	<p>Survey to be prepared by a Registered Surveyor to AHD and to show existing natural ground level, levels of existing building including roof/roof eaves, levels of window sills, and the level of adjoining roof/roof eaves.</p> <p>The survey should also show the location and levels of any existing buildings and on adjoining sites.</p>
Site Plan	<p>All development applications.</p> <p>The level of detail included in the plan will be dependent on the scale of the proposed works.</p>	<p>A Site Plan must be at a scale of not less than 1:200 and include:</p> <ul style="list-style-type: none"> • The location, boundary dimensions, site area and north point of the land; • Existing levels of the land in relation to buildings and roads to Australian Height Datum; • Existing vegetation and trees (including their botanic name and size) of trees proposed to be removed and retained; • Proposed private open spaces and landscaped areas; • The location of other natural features on the site e.g. rock/sandstone outcrops, watercourses; • The location and levels of existing buildings, fences and other structures; • The location and levels of any proposed new buildings or alterations and additions to existing buildings; • The location, levels and uses of buildings (including location of windows) on the adjoining land; • Waste bin storage and collection areas; and • Location of easements and services on the site and immediately adjoining the site.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Site Analysis Plan	All Development	<p>The Site Analysis can be demonstrated by plan at an appropriate scale, and shall include, but is not limited to:</p> <ul style="list-style-type: none"> • Property details including site boundaries, dimensions and area. • Encumbrances such as easements or rights of way. • Orientation, aspect, views and microclimate. • Existing noise sources, light spillage and overshadowing. • Landform including contours or spot levels, areas of landfill. • Landscape including existing trees, vegetation and natural features. • Services and infrastructure including stormwater drainage. • Access and street features including roads, poles, footpaths, driveways. • Predominant front and rear setbacks. • Existing development including buildings, fences, driveways. • Existing heritage or archaeological features on or adjoining the site. • Existing land and development adjoining the site. • Proposed development. <p>In addition, submit a written statement in the Statement of Environmental Effects, supported by photographs, demonstrating how the proposed design responds to the constraints and opportunities identified in the site analysis.</p>
Context Analysis	<p>All development within a Heritage Conservation Area.</p> <p>All development of Heritage Items, Multi Residential Development, and Mixed Use Developments.</p> <p>Places of public worship.</p> <p>Development located in a B1, B3 or B4 zone.</p>	<p>Submit a written document describing how the design proposal has considered and responded to the surrounding context.</p> <p>This document should include photos, illustrations and descriptions of:</p> <ul style="list-style-type: none"> • Existing buildings and uses • Neighbouring buildings and uses • Streetscape and heritage characteristics • Business / local centre characteristics • Stormwater and drainage • Trees and landscaping • Views • Privacy • Traffic, transport and parking • Access • Sunlight • Ventilation <p>For more information refer to WDCP2022 Part B11 Design Excellence Section 11.2 Context and Site Analysis.</p> <p>The site analysis should detail how the proposed development or change of use will affect the site, the streetscape and surrounding properties, and also analyse the existing conditions of the site to identify the opportunities and constraints.</p> <p>The Context Analysis is to include a written statement describing:</p> <ul style="list-style-type: none"> • How the design proposal has considered and responded to the context; and • The nature and degree of consistency of the built form and character within the streetscape.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Streetscape Analysis	Development that proposes a new vehicle crossing (driveway).	<p>A Streetscape Analysis must:</p> <ul style="list-style-type: none"> • Provide a comparison between the current and proposed on-street parking provision and layout; • Provide an analysis of the character of the street and whether vehicular access will adversely impact the streetscape; and • Demonstrate how pedestrian and cyclist accessibility and safety is maintained.
Floor, Elevation, Roof Plans and Sections	All development applications involving building work and change of use.	<p>Floor Plans must be at a scale not less than 1:100 and include:</p> <ul style="list-style-type: none"> • Existing and proposed works on each floor including roof plans; • Calculable GFA for proposal; • Room sizes and intended uses/works; • Ventilation systems, air conditioning, solar panels and satellite dishes; • Setbacks from boundaries and adjoining buildings including window openings, doors and external living areas; • Outdoor spaces, such as balconies with dimensions and any ancillary structures; • Details of any devices/measures to address amenity issues e.g. screening, window details; • Fencing or retaining walls; • Swimming pools/spas and associated works including the location of the pool filter and pool motor; RLs of the pool coping in relation to the existing ground levels of the subject premises and adjoining premises; and • External lighting. <p>The Roof Plan must be at a scale not less than 1:100 and include:</p> <ul style="list-style-type: none"> • All ventilation systems, air conditioning, satellite dishes and screening. <p>Elevation Plans must be at a scale not less than 1:100 and include:</p> <ul style="list-style-type: none"> • Outline of existing buildings; • Elevations of all sides of the building or structure; • Materials and external finishes; • Location of adjoining buildings showing height and setback; • Proposed window details; • Chimney, lift motor rooms, air conditioning units, solar panels, satellite dishes, and other structure associated with the roof. <p>Section Plans must be must be at a scale not less than 1:100 and include:</p> <ul style="list-style-type: none"> • Appropriate number and location of each section; • Section line; • Room names; • Areas of cut/and or fill; • Finished ground levels, floor levels, roof line levels and driveway grade; • Location of existing trees; and • Ground level from survey.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Shadow Diagrams	<p>All development applications for dwelling houses or dual occupancies.</p> <p>All development applications for Multi Residential Development, Mixed Use Development and Commercial Development greater than 1 storey in height.</p> <p>In both cases above, there may be exceptions where the Council officer considers otherwise in regards to the circumstances of the case.</p>	<p>Shadow diagrams must be at a scale not less than 1:100. Where a proposal exceeds the height control in the DCP or LEP a diagram is to be provided which compares a compliant height to the proposed height to determine the additional shadow impacts and be demonstrated as a view from the sun diagram.</p> <p>Shadow diagrams should include:</p> <ul style="list-style-type: none"> • North point (true north); • Position of existing and proposed buildings and fences; • Position of buildings on adjoining land including windows to living areas; private outdoor open space; swimming pools and solar panels; • Shadows cast during the winter solstice for 9am, 12 noon and 3pm (show altitude and azimuth angles); • Change(s) in shadows from existing development to proposed development; and • If the proposal is likely to overshadow, the windows of adjoining building(s), provide an elevation to show shadow impacts.
Landscape Plan – Low Density Residential	<p>Alterations and additions to development to which WDCP2022 Part C1 - Low Density Residential applies.</p>	<p>The plan must demonstrate an understanding of the site and its context having regard to the coastal location and sandy soil.</p> <p>The plan is to be prepared in accordance with Part B3 Landscaping, Biodiversity and Vegetation Preservation.</p> <p>The Plan is to include a plant species list, showing the botanical and common names of plants, pot size of plants, number of plants and the area of origin of the plant material.</p> <p>For properties containing or adjoining remnant vegetation, habitat corridors or recognised habitat, (See Part B3 Landscaping, Biodiversity and Vegetation Preservation) the landscape plan should be consistent with the relevant section of the Biodiversity Action Plans – Remnant Sites or Habitat Corridors.</p> <p>The Plan must include all proposed changes to landscaped space including:</p> <ul style="list-style-type: none"> • Existing levels and finished levels (indicating the extent of cut and fill) • Provision of deep soil areas (deeper than 400mm); • Any landscaping to be retained; • Any trees to be removed; • Proposed new planting (species, pot size, mature height and quantity); and <p>Proposed surface treatments (e.g. turf, paving, etc.)</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Landscape Plan – All Other Development	<p>All new developments excluding development in Business Centres.</p> <p>In cases where additions to existing buildings include alterations to landscaped open space.</p> <p>Landscape works.</p>	<p>Landscape Plan must be prepared by a suitably qualified and experienced landscape architect or landscape designer (minimum of Diploma, and eligibility for membership with AILA or AILDm).</p> <p>The plan must demonstrate an understanding of the site and its context having regard to the coastal location and sandy soil.</p> <p>The plan is to be at a scale not less than 1:100.</p> <p>The plan is to be prepared in accordance with Part B3 Landscaping, Biodiversity and Vegetation Preservation.</p> <p>The Plan is to include a plant species list, showing the botanical and common names of plants, pot size of plants, number of plants and the area of origin of the plant material.</p> <p>For properties containing or adjoining remnant vegetation, habitat corridors or recognised habitat, (See Part B3 Landscaping, Biodiversity and Vegetation Preservation) the landscape plan should be consistent with the relevant section of the Biodiversity Action Plans – Remnant Sites or Habitat Corridors</p> <p>The plan must include all proposed changes to landscaped space including:</p> <ul style="list-style-type: none"> • Existing levels and finished levels (indicating the extent of cut and fill) • Provision of deep soil areas (deeper than 400mm); • Any landscaping to be retained; • Any trees to be removed; • Proposed new planting (species, pot size, mature height and quantity); and <p>Proposed surface treatments (e.g. turf, paving, etc.)</p>
Water Management Site Plan	All development applications except for internal works.	Plans are to be in accordance with the Waverley Water Management Technical Guidelines.
Stormwater Management Plan	<p>All development (excluding minor alterations and additions) on land identified as, or land adjacent to, remnant vegetation in the Terrestrial Biodiversity Maps in WLEP2012.</p> <p>Also identifiable on OMT Layer: Biodiversity.</p>	<p>A stormwater management plan must be submitted with the development application that demonstrates the proposed measures that will be adopted to ensure no adverse environmental impact is imposed on any remnant vegetation. Such measures could include sediment fencing to retain stockpiles on site or geotechnical fabric to protect stormwater drains.</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Subdivision / Strata Plan	All development applications proposing to torrens subdivide or strata subdivide land.	<p>The Plan is to include:</p> <ul style="list-style-type: none"> • Existing and proposed subdivision boundaries; • The number of lots; • Any easements or encumbrances; • Lot areas in square metres; • Lot and deposited plan numbers; and • Proposed common property and private property for strata plans.
Statement of Environmental Effects (SEE)	All development applications.	<p>An SEE outlines the proposal and addresses all issues for consideration and assessment. The SEE must outline:</p> <ul style="list-style-type: none"> • The details of the proposal; • The suitability of the site for the proposed development; • Explain how the proposal has resolved the relevant matters contained within Section 4.15 of the EP&A Act 1979; • Compliance with any relevant Environmental Planning Instruments including SEPPs, and the WLEP2012 and WDCP2022; • Where any relevant controls are not satisfied justification for the non-compliance must be provided; • The likely environmental impacts of the development on the natural and built environment; • The steps to be taken to protect the environment or to lessen the expected harm to the environment; • Any likely social or economic impacts from the development; • If the non-compliance relates to a development standard in WLEP 2012 (e.g. Lot size, building height and floor space ratio), a statement addressing Clause 4.6 of the WLEP2012 must be provided for consideration; • If Chapter 2 Part 2 Division 1 or 2 of the Housing SEPP 2021 applies, the name of the registered community housing provider who will likely manage the development; • The existing and proposed bedroom and unit numbers for boarding house and residential flat building development.
Cost Report	All development applications	<p>Costs <\$500,000, a detailed cost report is required prepared by a suitably qualified person.</p> <p>For development costs ≥ \$500,000, a Registered Quantity Surveyor's detailed cost report is required.</p> <p>Council reserves the right to verify the accuracy of any cost report and may adjust DA Application Fees and Development Contributions accordingly.</p>
BASIX Certificate	As required by State Environmental Planning Policy (BASIX Sustainability Index) 2007.	<p>Certification is to be submitted to ensure the development satisfies suitability targets prescribed by the NSW Government.</p> <p>Site, floor elevation and landscape plans must identify BASIX commitments.</p> <p>If a swimming pool is proposed, the BASIX pool requirements must be shown on the plans. See: basix.nsw.gov.au</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Development Specific Documentation		
Arborist Report	<p>Where a development has any potential impact on existing trees an arborist report must be submitted.</p> <p>A report may be required where a tree is:</p> <ul style="list-style-type: none"> • Listed on the significant tree register or heritage listed. • Considered hazardous or dangerous. • Council considers prominent due to age, amenity, size or habitat and likely to be affected by a proposed development; or • Council considers the submitted information is insufficient and further information/clarification is required. 	<p>The report must:</p> <ul style="list-style-type: none"> • Be in accordance with the Australian Standard 4970 – 2099 - Protection of Trees on Development Sites; • Include recommendations for minimising loss of landscape amenity; • Be thorough, balanced and objective in assessing the impact on a tree/s health and condition; • Be written by a qualified arborist with the minimum qualification of Level 5 AQF (Australian Qualification Framework) or equivalent; • Identify each tree with reference to the survey plan; and • Meet the criteria as outlined in Council’s Tree Management Policy Appendices.
Archaeological Assessment	Applications involving development on land identified as Archaeological in the WLEP 2012 Heritage Maps.	See: heritage.nsw.gov.au
Access Report	Where disabled access is required under the Disability Discrimination Act 1992.	<p>To be prepared by a suitably qualified professional. If claiming exceptional circumstances as reasons for a proposal not complying with the requirements of the Disability Discrimination Act 1992, the application must be addressed in the access report.</p> <p>For more information please refer to humanrights.gov.au</p>
Adaptable Housing Plans	All new development with 3 or more habitable storeys or 10 or more units.	Adaptable units must be identified on all floorplans as ‘adaptable housing units’. A plan is to be included for each dwelling type that demonstrates the layout before and after adaptation.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Acoustic Report	<p>Mixed Use Development comprising non-residential uses and residential uses, or Commercial and Retail development within a residential area.</p> <p>Child care centres.</p> <p>Council may request an acoustic report on any DA as deemed reasonable, necessary and appropriate to the assessment of the proposal.</p> <p>Development involving:</p> <ul style="list-style-type: none"> • extension of trading hours; • a review of trial period is sought; and • a live entertainment venue. 	<p>The acoustic report must include, but is not limited to:</p> <ul style="list-style-type: none"> • Identification of sensitive noise receivers potentially impacted by the proposal; • Quantification of the existing acoustic environment at the receiver locations (measurement techniques and assessment period should be fully justified and in accordance with relevant Australian Standards and NSW Environmental Protection Authority (EPA) requirements; • Formation of a suitable assessment criteria having regard to the guidelines contained in the NSW EPA Industrial Noise Policy; • Identification of operational noise producing facets of the proposal and the subsequent predictions of resultant noise at the identified sensitive receiver locations from the operation of the use. Where appropriate the prediction procedures must be justified and include an evaluation of prevailing atmospheric conditions that may promote noise propagation; and/or • A recommendations statement indicating the development/use will comply with the relevant criteria together with details of acoustic control measures incorporated into the development/use so that there will not be adverse noise impacts to surrounding development.
Advertising and Signage Documentation	<p>All applications for advertising or signage.</p>	<p>All applications for advertising and signage are to include sections and elevations.</p> <ul style="list-style-type: none"> • Details of all advertising proposed for the site, including: • Number of signs proposed • Location and size of signs proposed • Lettering content for each sign • Colours to be used • Information about electronic, illuminated or animated signage • Plans drawn to an appropriate scale showing the location and size of all proposed advertising on the building. <p>Photographs detailing the site and the relationship of the proposed advertising to that on adjoining buildings and the streetscape.</p>
Car Share Letter of Support	<p>All development proposing car share spaces.</p>	<p>A letter from a commercial car share operator is to be provided confirming their intention to place one of more car share vehicles within the development.</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Crime Risk Assessment	Applications for new residential development comprising of 50 or more dwellings.	A crime risk assessment is to be prepared in accordance with the Crime Prevention Principles outlined in the 'Crime Prevention and the assessment of development applications' Guidelines under Section 4.15 of the EP&A Act 1979.
Coastal Risk Assessment	All development on land identified on the Waverley Online Mapping Tool on layers: <i>OMT Layer: Coastal Inundation</i>	A Coastal Risk Assessment must be prepared by a suitable qualified expert in accordance with the Waverley Coastal Risk Management Policy.
Digital 3D Model	Any development that proposes to make amendments to a building's existing envelope within the B3 Commercial Core or B4 Mixed Use Zone. For all other zones - Any development that proposes to make amendments to a building's existing envelope, which will result in a building height of 12 metres or more.	A 3D digital model of the building must be generated at a scale of 1:1 with units of measurement in metres and include the following: <ul style="list-style-type: none"> • a building envelope which includes all elements affecting shadow analysis; • accurate placement of glazing, balconies, roof pitches, terraces, roof services and any other prominent external design features; • neighbouring dwellings impacted by the proposal (for sites outside the Bondi Junction B3 Commercial Core or B4 Mixed Use Zone); • ground level terrain showing accurate RLs extending to site boundaries; • internal floor plate of each level showing accurate RLs. <p>All models must be generated in accordance with Council's Requirements for Submitting a Digital 3D Model.</p> <p>Any future modifications (under Section 4.55 of the EP& A Act 1979) that affect the external configuration of building (from the ground level and up) require an amended model to be submitted.</p> <p>See: waverley.nsw.gov.au</p>
Electric Vehicle Charging Point Locations	All commercial developments. All mixed use and multi-residential developments with more than 5 dwellings.	Charging point locations and details are to be identified on DA Plans.
Energy Assessment Commitment	New mixed use and commercial development with a cost of works of \$3 million or greater. Not required for residential-only development.	Applicants are to demonstrate a commitment to achieving the reduced operational energy use and greenhouse gas emissions as outlined in Section B2.5 Energy Assessment. This can be demonstrated via an intended sketch and draft outline of measures, and evidence that a suitably qualified professional has been engaged for the process. A detailed Energy Assessment Report will be required as a condition of consent.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Fire Safety Upgrade Report	For all major alterations and additions to Multi Residential Development, Mixed Use Development, and Commercial buildings or where required by Council's Fire Safety Officer.	The fire safety upgrade report is to be prepared by a suitably qualified surveyor/accredited certifier which outlines an assessment of the levels of fire and life safety within the existing and proposed development and proving appropriate recommendations for its upgrade.
Flood Risk Assessment and Risk Management Plan	All new buildings and significant alterations and additions in 'flood planning areas' as identified in the <i>WLEP 2012 Flood Planning Map</i> .	Risk Assessment and Risk Management Plan is to be in accordance with the Waverley Water Management Technical Guidelines.
Geotechnical Report	<p>All development on land identified on the Online Mapping Tool layers:</p> <p>OMT Layer: Geotechnical Hazard</p> <p>OMT Layer: Coastal Inundation</p> <p>Also required where excavation is:</p> <ul style="list-style-type: none"> • proposed for development at or near cliff faces; • greater than 2m; and/or • on sites that have a slope of 25% or more. <p>If Council deems appropriate a report may be requested.</p>	<p>A geotechnical report must be prepared by a suitably qualified geotechnical engineer addressing the stability of the site and surrounding properties.</p> <p>Where excavation is close to a boundary the report must address how the works will be undertaken so as not to adversely affect surrounding properties.</p> <p>If the property is identified on the Geotechnical Hazard or Coastal Inundation layers refer to the Waverley Coastal Risk Management Policy.</p>
Green Travel Plan or Workplace Travel Plan	<p>A Green Travel Plan or Workplace Travel Plan is mandatory for all developments:</p> <ul style="list-style-type: none"> • With over 2,500m² for office / commercial/ retail land uses; • Including 15 dwellings or more; • Where 50 or more employees are proposed; • Places of public worship; or • As deemed necessary by Council. 	<p>A travel plan must include:</p> <ul style="list-style-type: none"> • Targets – this typically includes the reduction of a single occupant car trips to the site for the journey to work and the reduction of business travel. • Travel data – an initial estimate of the number of trips to the site by mode is required. • Measures – a list of specific tools or actions to support and achieve the targets. <p>See pcal.nsw.gov.au and travelsmart.gov.au</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Green Roof/Wall Design Statement	<p>All green roof or green wall works.</p> <p>Refer to <i>WDCP2022 Part B3 Landscaping, Biodiversity and Vegetation Preservation Section Green Roofs and Walls</i>.</p>	<p>The Green Roof/Wall Design Statement must include:</p> <ul style="list-style-type: none"> • The anticipated load of the green roof or wall, by a structural engineer. • Evidence the green roof or wall has been assessed as part of the structural certification for the building. • Evidence the green roof or green wall has been assessed as part of the waterproofing certification for the building. • A cross-sectional diagram that details all the components of the green roof or green wall. • The location of existing and proposed structures • Drainage, irrigation and waterproofing, and overflow provisions. • Earthworks and mounding and retaining walls and planter boxes (if applicable). • The proposed growing medium, with soil types and depth • The location, species and numbers of plants likely to be used. • Safety features such as balustrades and maintenance hooks (if applicable). • The parts of the green roof that are accessible and inaccessible. • How a green wall is attached or fastened to the wall. <p>A maintenance plan detailing arrangements for inspection and maintenance, including waterproofing membrane, drainage and irrigation.</p>
Heritage Conservation Management Plan	<p>Applications involving:</p> <ul style="list-style-type: none"> - a change of use of a heritage item of State heritage significance; - any alteration to the fabric or setting of a heritage item of State heritage significance which requires consent; or - substantial alterations and or additions to a heritage item considered by the Council to be of high local significance, unless the consent authority determines that it is not required. 	<p>See: heritage.nsw.gov.au</p> <p>The conservation management plan is to include:</p> <ul style="list-style-type: none"> • the investigation of the physical and documentary evidence of the heritage item; • a comparative analysis and curtilage assessment; • assessment of the significance of the heritage item; • the investigation of the constraints and opportunities for the item including the owner's needs and resources, and external constraints; • conservation policies which address the following: <ol style="list-style-type: none"> i. conservation of the fabric and setting of the heritage item; ii. appropriate uses of the heritage item; iii. appropriate ways to interpret the significance of the heritage item; iv. management of the heritage item; v. guidelines for future development; and • priorities for instigation of conservation policies.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Heritage Conservation Management Strategy	May be applicable in place of a Conservation Management Plan for heritage items of local significance.	A conservation management strategy is to be prepared in accordance with the guidelines available from the Office of Environment and Heritage.
Heritage Impact Statement	Applications relating to a heritage item, sites within a heritage conservation area, or on sites within the vicinity of a heritage items.	<p>A Heritage Impact Statement is to be prepared by a qualified heritage architect/planner (in accordance with the NSW Heritage Manual and the Burra Charter) and include:</p> <ul style="list-style-type: none"> • An assessment of the impact of works on the site, item and/ or conservation area; • Include a history of the property; and • Before and after photos. <p>Council may also require the submission of a Heritage Conservation Management Plan.</p>
Housing Report	<p>Applications which may result in the loss of affordable housing in accordance with State Environmental Planning Policy (Housing) 2021. This includes:</p> <ul style="list-style-type: none"> • Applications to strata subdivide an existing residential flat building, • Or an application for the demolition of a non-strata titled residential flat building or boarding house, • Or significant alterations and additions to a non-strata titled residential flat building or boarding house. 	<p>The report is to address all relevant provisions of the Housing SEPP including Chapter 2 Part 3 Retention of existing affordable rental housing. The report must assess whether the proposal will result in a loss of affordable housing in accordance with the Housing SEPP due to the proposed development (including strata subdivision).</p> <p>Where rental records are required, they should be provided in the format of executed leases and rental increase or decrease letters, or information from the leasing agent accompanied by an executed statutory declaration.</p> <p>Please refer to the Housing SEPP for further information.</p> <p>See: legislation.nsw.gov.au</p>
Integrated or Designated Development	All integrated or designated development.	<p>An application for integrated or designated development must include:</p> <ul style="list-style-type: none"> • sufficient information for the approval body to make an assessment of the application; • additional copies of the plans as determined by the consent authority; and • an additional fee for each approval body and administrative fee to Council.
Loading Vehicles Plan of Management	Applications for development as identified in <i>WDCP2022 Part B7 Section 7.3 – Loading Facilities</i> .	The Loading Vehicles Plan of Management is to be submitted when a development proposes less loading spaces than required by Table 4 in <i>WDCP2022 Part B7 Section 7.3 – Loading Facilities</i> .

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Photo-montages	<p>Photomontage is required for:</p> <ul style="list-style-type: none"> • SEPP 65 applications • Multi-residential development • Mixed use development • Development subject to Part E of the WDCP • New dwellings <p>Council may require a photomontage for smaller scale development than those listed.</p>	<p>A Photomontage should:</p> <ul style="list-style-type: none"> • Be a three-dimensional perspective of the proposal in relation to the existing streetscape; and • Include at least 2 sites on either side of the subject site.
Open Space Plan	Places of Public Worship Educational Establishment	<p>The Open Space Plan is to:</p> <ul style="list-style-type: none"> • identify the amount of open space area to be provided; • identify the types of open space area to be provided, including indoor and outdoor recreation facilities; • identify any potential opportunities for public access to the open space when not in use by the place of worship; and • identify the likely effects of the use of open space areas on the amenity of nearby residents (including how often and the type of activities to occur) and measures to mitigate and manage the impacts of noise on adjoining properties.
Planning Agreement	Where a Planning Agreement is being offered.	Applications are to be submitted in accordance with the Waverley Planning Agreement Policy.
Preliminary Contamination Report	Applications on land that is or may be potentially contaminated.	<p>Applications are to address State Environmental Planning Policy (Resilience and Hazards) 2021</p> <p>See: legislation.nsw.gov.au</p>
Public Art Plan	<p>For developments located in a B1, B3 or B4 zone with a construction value exceeding \$10 million.</p> <p>Any DA's proposing public art.</p> <p>For more information, refer to <i>WDCP2022 Part B10 Public Art</i>, and Council's <i>Public Art in the Private Domain Policy</i>.</p>	<p>Developments located in a B1, B3 or B4 zone and with a construction value exceeding \$10 million are required to integrate a public artwork into the development to a minimum value of 1% of the construction costs (excluding administration and associated costs). Submissions are to be in accordance with Council's Public Art in the Private Domain Policy and include:</p> <ul style="list-style-type: none"> • Description of art; • Budget and cost summary; • Timeframe and staging; • Personnel; • Concept scaled drawings, samples and finishes; and • A plan of implementation and the ongoing management of the artworks.

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Plan of Management	<p>Development of:</p> <ul style="list-style-type: none"> • Shared Accommodation • Tourist and Visitor Accommodation including Hotel or Motel Accommodation • Child Care Centres • Late Night Traders • Licensed Premises • Restricted Premises • Tattoo Parlours/Studios • Places of Public Worship • Boarding House Accommodation <p>In situations where a building is unable to provide access as per the Disability Discrimination Act 1992 due to unjustifiable hardship.</p> <p>As deemed reasonable, necessary and appropriate to the assessment of the proposal by Council.</p> <p>Where a premise applies for:</p> <ul style="list-style-type: none"> • an extension of trading hours; • a review of trial period; • is proposing live entertainment; or • is in the opinion of Council to have the potential to create an acoustic impact a Plan of Management is to be submitted with the DA. 	<p>A Plan of Management is to include at minimum:</p> <ul style="list-style-type: none"> • Description of the proposal; • Proposed management; • Hours of operation; • Set out measures taken to mitigate any likely adverse environmental or social impact including but not limited to: control of users/patrons/residents entering and exiting premises, use of common areas, on-site staff and/or security measures, user/patron/resident parking arrangements, external lighting arrangements and waste management. • Proposed vehicles ingress and egress, the adequacy of any loading, unloading, turning or parking facilities; • Existing and likely future amenity of the neighbourhood; • Traffic likely to be generated and the adequacy of existing roads and present volume of traffic carried; • Whether public transport will be necessary to serve the development, availability and adequacy of public transport; • Social and economic effects of the development on the community, including the loss of affordable housing; • How complaints will be handled. • Any special circumstances relating to the site or the locality; and <p>Additional requirements as specified within the WDCP.</p>
Reflectivity Report	<p>Applications for buildings which incorporate large areas of glazing (either clear or highly reflective) in external surfaces above ground floor level.</p> <p>Refer to <i>WDCP2022 Part B15 Public Domain Section 15.4 Reflectivity</i>.</p>	<p>Solar reflectivity report prepared by a suitably qualified consultant. Report must document whether luminance intensity of 500 candelas / m² (as calculated by Holladay formula) will be exceeded.</p> <p>Alternatively specify the limiting reflectivity such that luminance intensity of 500 candelas / m² is not exceeded. Report is to propose measures to reduce potentially undesirable / hazardous solar reflections.</p>
Schedule of external finishes	<p>For all new development.</p> <p>For significant alterations and additions to existing buildings.</p> <p>In all other cases materials and finishes are to be indicated on illustrated elevations and plans.</p>	<p>Details of all external finishes proposed is to be submitted.</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
SEPP 65 Assessment and Design Verification Statement	Applications to which State Environmental Planning Policy No 65 – Design Quality of Residential Flat Development	<p>Requirements include:</p> <ul style="list-style-type: none"> • An explanation of the design in terms of the design quality principles set out in Part 2 of State Environmental Planning Policy No 65 – Design Quality of Residential Flat Development; • Photomontages or photos of the model of the proposed development in the context of surrounding development; • A design verification statement by a registered architect; and • Applicable fee for referral. <p>Please refer to the Apartment Design Guide to confirm submission requirements.</p>
Site Compatibility Certificate	Applications in accordance with State Environmental Planning Policy (Housing) 2021 and State Environmental Planning Policy (Transport and Infrastructure) 2021	<p>Certificates are to be in accordance with the relevant SEPP.</p> <p>See: legislation.nsw.gov.au</p>
Site Waste & Recycling Management Plan	All development excluding minor internal alterations.	<p>Two Site Waste & Recycling Management Plans must be completed and submitted with applications. One for the management of construction and demolition waste and one for the design of waste storage and the ongoing waste management post construction. Both must include an architectural drawing of the waste storage areas, relevant waste infrastructure, and transport route to the point of collection.</p> <p>See: Council's <i>Preparing Your Development Application</i> webpage for templates, including an excel spreadsheet to assist in calculating waste generation rates for a DA.</p>
Structural Engineers Report	Applications which propose a substantial amount of the existing building (i.e. more than 50% of the original building).	<p>The report is to be prepared by an appropriately qualified structural engineer and is to determine whether the existing building fabric will be able to remain standing with the proposed demolition works; and provide recommendations to ensure that the remaining fabric will remain in place during construction. Should the report not be able to conclude this, then the application is to be submitted as a DA for a new building and will be assessed as such against the DCP and BASIX requirements.</p>
Social Impact Statement	Applications in accordance with the Waverley Social Impact Assessment Guidelines 2022, and where requested by Council Assessment Officers.	<p>Requirements include:</p> <ul style="list-style-type: none"> • Identification of existing social baseline; • Assessment of change to social baseline by proposal; and • Identification of negative social impact mitigation measures and positive social impact enhancement measures. <p>Additional requirements as specified within the Waverley Social Impact Assessment Guidelines 2022.</p>

DEVELOPMENT APPLICATION REQUIREMENTS

Plan / Document	When Required	Information
Traffic and Transport Management Plan	Applications for development as identified in <i>WDCP2022 Section B7 Transport: 7.6 Traffic and Transport Management Plans</i> .	<p>The plan should provide an assessment of the traffic and parking impacts the development proposal may have on the surrounding road network and must address matters such as:</p> <ul style="list-style-type: none"> • Current on street parking restrictions and availability; • Current traffic conditions; • The likely impact of the proposed development on existing traffic flows, the surrounding street system and on street parking availability; • Safety of pedestrian and vehicular movements in and around the centre; • How impacts of drop-off and pick up will be accommodated; • Proposed Travel Plan; and • Encouraging active transport.
View Loss Analysis	<p>Applications that may result in significant view loss.</p> <p>As requested by Council.</p>	A detailed view loss analysis should include an accurate 'before' and 'after' photomontage or set of architectural drawings demonstrating the position of the proposed development within the view or views to be impacted. The analysis should be prepared by an architect, draftsman or suitably qualified expert and should be to scale where possible.
Wind Environment Statement	<p>Development over 5 storeys in height but not more than 9 storeys provided a Wind Tunnel Study is not required.</p> <p>Refer to <i>WDCP2022 Part E1.20 Wind Mitigation</i>.</p>	Wind environment statement is to be prepared by a suitably qualified wind consultant providing evaluation of the wind conditions occurring on the various outdoor spaces within and around the development. The assessment is based on an understanding of the local wind climate, a site inspection, as well as an inspection of the proposed design. If any areas within or around the development are likely to be adversely affected then in-principle recommendations should be made to address these wind effects.
Wind Tunnel Study	<p>Applications for any buildings over 9 storeys in height or is considered exposed.</p> <p>Refer to <i>WDCP2022 Part E1 Bondi Junction Section 1.20 Wind Mitigation</i>.</p>	<p>Wind Tunnel Study must:</p> <ul style="list-style-type: none"> • Assess the likely wind effects of the development; • If the wind conditions in any of the areas surrounding the site exceed the relevant criteria then model the existing wind conditions to accurately quantify the impact; and <p>Recommend measures required to improve adverse wind conditions created by the proposal and demonstrate that the recommended measures will be effective in mitigating the adverse wind effects.</p>

A blue-tinted photograph of a person wearing a white hard hat and a dark jacket, looking through the eyepiece of a surveying instrument mounted on a tripod. The instrument has a large lens and various adjustment knobs. The background is a solid blue color.

Section 04.

**THE ASSESSMENT
PROCESS**

This section outlines the Development Application assessment process.

1. INITIAL PROCESSING

Once a DA has been lodged, the initial processing takes place. This includes generating a unique application number for your reference and an acknowledgement letter sent to the applicant. Referrals are also provided to relevant internal council officers, external agencies and government departments for review and comment on the proposal where required.

2. PUBLIC CONSULTATION

Council is required to notify adjoining and neighbouring owners that may be affected by a development proposal unless the proposal is of a minor nature. Council will send out notification letters to persons or organisations that may wish to comment on or object to the proposed development. Council may also advertise certain applications in the local newspaper. Please refer to the *Waverley Community Participation Plan* for more information. The issues raised in submissions will be considered by the planner and discussed in the assessment report.

3. ASSESSMENT

The assigned Assessment Officer undertakes a detailed assessment of the application in accordance with Section 4.15 of the EP&A Act 1979. This involves considering all relevant environmental planning instruments, development control plans, council policies, the likely impacts of the development, the suitability of the site for the proposed development and any submissions received. The assessment process may include a site inspection and we may need to

gain access to your property. The Assessment Officer may require additional information about an application to complete the assessment. This information may be required after the DA lodgment.

If required an application may be referred to the Design Excellence Advisory Panel to review and provide advice to Council's planners. The advice from the panel and internal Council experts, and any relevant external referrals will be considered by the planner and included in the assessment report.

4. DECISION

Once the Assessment Officer has assessed the application, a report is prepared to be determined by one of the following groups or persons:

- Staff Delegation
- Development Building Unit (Development Assessment Area Managers)
- Waverley Local Planning Panel (An Independent Hearing and Assessment Panel)
- Sydney Eastern City Planning Panel

• NSW State Government
Please refer to page 10 for more information about which determining authority will be appropriate in the circumstances of the application.

5. POST DETERMINATION PROCESS

After an application has been determined, a Notice of Determination of Development Application will be sent to the nominated applicant, and will detail whether the application has been approved or refused. As approved DA usually has a number

of conditions that must be satisfied. These are included in the Notice of Determination. If an application is refused, reasons why it has been refused are included in the Notice of Determination.

You can appeal against Council's decision in the Land and Environment Court within six (6) months of the date of the Determination Notice. Alternatively, you can seek a Review of Determination by Council under Section 8.2 of the EP&A Act 1979. Alternatively, If you are dissatisfied with a condition of the consent, you may apply to Council under Section 4.55 of the EP&A Act 1979 to have the condition removed or varied. You need to give reasons or supply such additional information that supports your application. You can discuss this with the Assessment Officer.

6. CONDITIONS OF APPROVAL

Development consents are generally valid for five years unless a condition of your consent specifies that it lasts for a shorter time. All development consents will have a number of conditions attached and it is important that you read and understand all of them.

For more information, or direction on how to address conditions of consent, refer to **Council's website**.

If you fail to comply with any requirements, your development may be stopped and/or fines imposed. If you have any queries about any conditions please contact the Assessment Officer whose name appears near the end of the consent notice.

FURTHER ENQUIRIES

After reading this guide, if you have any further queries about the development application requirements or the assessment process, please contact Council's Duty Town Planner on **9083 8484**.
