8. Definitions.....12

1. Background

The Local Government Act 1993 (The Act) allows that a Council may provide financial assistance to individuals or organisations for the purpose of exercising its functions. Through its community grants programs Waverley Council provides individuals and organisations with assistance to deliver programs, activities and projects that contribute to achievement of the goals described in the Waverley Community Strategic Plan, the community's vision for Waverley's future.

2. Objective

The objective of this policy is to facilitate the provision of community grants assistance in a manner that is consistent, equitable and transparent.

3. Scope

This policy covers the following grant making (outbound) activities:

- Community Services and Cultural Grants Program
- Small Grants Program:
 - Community and Cultural
 - Environmental
 - Creative Streets, and
- Unsolicited proposals for financial assistance to support the delivery of identified social, cultural or recreational benefits to Waverley's community.

4. Grant Making Principles

4.1 Deliver outcomes that align with Waverley's Community Strategic Plan

The Waverley Community Strategic Plan identifies the community's main priorities and aspirations for the future. A delivery plan is prepared every four years by Council in partnership with the community using an integrated planning and reporting framework.

The framework recognises that local councils have both a 'custodial and facilitating' role in the delivery of social, economic, environmental and civic outcomes, and must work in partnership with other levels of government and the community to maximise capacity to make community aspirations a reality. Council values the insight, skills, and resources that individuals, community groups and businesses have to contribute to shaping Waverley's future, and welcomes community initiatives.

Responsive to community needs and issues, Council's grants programs are designed to deliver outcomes that align with Waverley's Community Strategic Plan, and key sub-plans such as the Disability Inclusion Action Plan, the Reconciliation Action Plan, and the Environmental Action Plan. These help to establish priorities that may change from year to year, as set out in Council's annual Operating Plan, and Grants Program Guidelines.

4.2 Build strong working relationships that enhance community capacity

Council will work to develop and maintain open, constructive working relationships with grant applicants and grantees through the provision of clear guidelines, opportunities for joint planning and skills development, timely processing, constructive feedback, and consultation from time to time on the grants process.

4.3 Promote Participation and Inclusion

Council invites applications for support under its community grants programs across the full spectrum of the community, including individuals, community organisations and small businesses. We ensure that application forms and acquittal requirements are proportionate to the scale, nature, complexity, and risks involved in the grant activity. Information is made available through Council's venues, website, social media pages, and other media outlets. Identified officers are available to provide feedback on proposals prior to submission.

4.4 Ensure Fairness and Transparency

Council is committed to ensuring that the administration of its community grants programs is fair and transparent. The community grants programs are described in Council's annual Operating Plan, and the value of grants made is reported in its Annual Report. Grants applications are assessed by at least three officers with relevant expertise against the criteria published for each program. The recommendations are considered by senior officers prior to their submission in a report to Council. Records of each assessment are kept and communicated directly to applicants. Conflicts of interest are identified and addressed according to the procedures contained in Council's Code of Conduct.

4.5 Ensure Grant Making in the Public Interest

Council is committed to ensuring that its systems are robust, and support ethical decision making in the public interest. Achieving value for public funds is a key objective in grants assessment and administration. Council's systems are regularly reviewed against relevant legislative requirements, performance in operation, feedback from participants, and examples of best practice in grants administration.

For the purposes of this policy, unsolicited grant requests are those which are submitted outside of the Community Services and Cultural or Small Grants Programs, or other call for funding submissions made by Council.

Unsolicited grant requests will be directed to the Executive Manager, Community Programs, for assessment. The Executive Manager will direct the requestor to complete an application form for the most relevant grant program, Community Services and Cultural Grants, or Small Grants, to enable assessment of the proposal, and initiate the assessment. Assessment will involve officers with expertise relevant to the request.

Assessment will include consideration of:

- The identity and credentials of the applicant against the eligibility criteria for the relevant program
- The case for considering the request outside of the procedures for the relevant program
- The merit of the proposal against the assessment criteria for the relevant program
- The financial implications of the request.

Requests that are more appropriately assessed by other Council teams may be referred.

Following assessment, the relevant Executive Manager will either:

- Provide the applicant with feedback on the outcome of officer assessment if, as a result of that assessment, officers do not recommend progressing the request further. Feedback may include recommendations for further development of their proposal, possible alternate funding sources and other information that would assist the requestor
- Prepare a report documenting the results of officer assessment for a decision by Council if, as a result of that assessment, officers do recommend support for the request.

A report on all unsolicited applications received will be included in the Report to Council for the most relevant grants round following. Community Services and Cultural Grants occurs once annually, and Small Grants occurs twice annually.
