

RECYCLE TEXTILES AT YOUR SCHOOL

If your school is eager to recycle unwearable textiles, consider contacting the following services for more information. Remember waste avoidance is always best! Look for ways to reuse, repair and repurpose before recycling. Please note, all costs associated with the collection and recycling will be incurred by your school.

How was this information collected? Waverley Council contacted known service providers for information on the collection and recycling of unwearable uniform and non-uniform textiles at schools. We received five responses and deemed three as suitable options for Waverley schools.

Next steps for your school. Prior to engaging one of the above service providers, we recommend that a school undertakes their own research as well as obtain a quote to ensure the price and specific method of collection and recycling is suitable for your school.

*Determine whether an item is wearable or unwearable by asking yourself, would I give this item to a friend? If you would then it is considered 'wearable'. If it is too damaged or stained consider this 'unwearable' and suitable for recycling.
