**Waverley Council Response Report to Motions from the May 2021 Bronte Beach Precinct meeting**

<b>Meeting Date</b>	<b>Motion</b>	<b>Council Officer Response</b>	<b>Directorate</b>	<b>Status</b>
May 2021	<p>Background: Waverley Council is interested in encouraging the movement of birds throughout the Precinct area by actively encouraging the planting of appropriate vegetation which would both support and attract small birds. The area adjacent to the northern end of the Cutting is a perfect opportunity for such a project.</p> <p><b>Motion 1</b> Bronte Beach Precinct requests that Waverley Council considers the revegetation of the raised bank at the northern end of the Cutting in order to provide habitat for small birds.</p> <p>Proposer Sally Kendall Seconder John Batts Passed unanimously.</p>	<p>Council officers have been considering all three areas outlined in the picture below for some time and agree, that they could, if planted well and then maintained, be a great small bird habitat steppingstone, especially given the trampling and death of remnant vegetation on the ocean side of the cutting directly opposite site 2 below. At present, the resources required to undertake plantings in these areas is not available and this will be considered in the next 2022/23 budget process.</p>	Planning, Environmental and Regulatory Services
