Pricing methodologies

Fees and charges will be classified according to the pricing methodologies ('policies') as outlined below. Full cost recovery will apply to all of Council's fees and charges, except in the circumstances outlined in the alternative pricing policies.

Pricing policy	Definition
Policy A	No price is charged for this product/service. All costs associated with providing this product/service are met from general income.
Policy B	The price charged for this product/service makes a partial contribution towards the total cost of providing the service, rather than the full cost recovery, recognising the community benefit it provides.
Policy C	The price charged for this product/service is based on full cost recovery
Policy D	The price charged for this product/service generates cost recovery and an appropriate return
Policy E	The price charged for this product/service is set by reference to market prices.
Policy F	The price charged for this product/service is set by regulation or other legal agreement.
Policy G	The charge is a refundable deposit against possible damage to infrastructure, footpaths, kerb, gutters and roadways, buildings, parks and reserves caused by adjacent development or use of facilities.

Terms and explanations

Partial contribution: Council will recover less than the full cost. If the benefit of a service is a shared benefit for the community as well as individual users then partial contribution could be applied. This pricing could also be applied if full cost recovery results in widespread service avoidance. This approach is used to stimulate demand for a service.

Full cost recovery: Council will recover all direct and indirect costs of the service (including on-costs, overheads and depreciation of assets employed).

Market prices: the price of the service is determined by examining alternative prices of surrounding service providers (this also may or may not recover the full cost of the service). This pricing structure should apply in cases where the service is in competition with that provided by another council, agency or commercial provider and there is consequent pressure to set a price that will attract adequate usage of the service.

Prices set by regulation or legal agreement: the price of this service is determined by legislation and dependent on that price, Council may or may not recover its full costs, but has no discretion to do so.

Refundable deposits: in accordance with section 68 of the *Local Government Act 1993*, security damage deposits may be requested for the payment of making good any damage caused to Council property and/or completing any works required in connection with the approval.

Categories

Under section 610E of the *Local Government Act 1993*, Council may waive or reduce a fee in a particular case if Council is satisfied that the case falls within a category of hardship or any other category in respect of which Council has determined payment should be so waived or reduced.

Council has established the categories below. Not all categories apply to all fees. Please refer to each fee to see if a category applies, as well as the level of the discount offered.

Charity/community/not-for-profit: this category applies to groups that are either:

1. Registered as a charity or not-for-profit organisation.
2. 'Non-profit'; i.e. apply only a very small fee to help cover costs.

Critical support services: this category applies to groups that are either:

1. Groups that provide support to community members affected by dependency on drugs, alcohol, gambling.
2. Other Groups that are part of a 12-step recovery program.

Theatre/music/film hire: this category applies to venue hirers who are able to demonstrate that they are undertaking the proposed activity primarily for the creation and dissemination of cultural material as the proposed hire purpose. Activities that are skewed predominantly towards commercial outcomes will attract the standard fees.

Local primary schools: schools within the Waverley LGA

Non-local primary schools: schools from outside the Waverley LGA.

Students: students with current student card or other evidence of enrolment in a primary, second or tertiary educational institution.

Government authorities: local, state or federal government authority or agency.

Additional categories

The following additional categories have been established and may apply to any fees.

Commercial: where Council, or its contractor, operates a service and reduction of the fee is required to compete in the market.

Community recognition and community fundraising: excluding those fees or charges prescribed by legislation, fees or charges may be waived or reduced for initiatives that:

- Recognise and/or celebrate the achievements of an entity within the Waverley LGA (for example, street banners).
- Support the activities of not-for-profit community organisations that provide identifiable social benefits that respond to community needs (e.g. venue hire).
- Generate donations on behalf of, and/or for provision to, charitable fundraising authority holders where it is demonstrated that all revenue exceeding costs of the specified activity is donated (for example, facility hire for disaster recovery events).

Where a service is not provided or is disrupted

Where a service is not provided, Council may, at its discretion, refund or credit the fee. Where a service is disrupted, Council may, at its direction, refund or credit the fee in full or in part.

Goods and Services Tax (GST)

The impact of GST on fees and charges is shown in a separate column. If there is any change to the GST status of any of Council's goods and services throughout the year following Australian Taxation Office rulings or any other legislative change, the new GST will be applied immediately to the relevant fees and charges.

Sustainability implications

Social implications: the policy allows Council to exercise its community service obligations and to ensure equitable access to and consistent pricing of Council's services.

Economic and financial implications: the policy optimises returns to Council on the use of its assets and resources. At the same time, it recognises the principles associated with users' ability to pay, competition and market conditions.

Environmental implications: there are no environmental implications associated with this policy.

30. TOWN PLANNING

Note: Council may seek to recover a higher fee, with agreement of the proponent.

Note: Basic planning proposals: A basic planning proposal generally refers to a single allotment spot rezoning generated by a planning anomaly or inconsistency. Standard planning proposals refer to applications requiring a higher level of investigation, possibly involving several disciplines within Council or that may generate considerable community interest.

Complex planning proposals will require extensive investigation, generate considerable community interest and are likely to be the catalyst for consideration of planning controls on sites further afield than the subject site.

32. USE AND HIRE OF COUNCIL PROPERTY

Definition of categories

Standard rate

Applies to all hirers, including commercial operators, except:

- Hirers who fall within a category below.
- Children's parties or functions/events. Different rates apply to children's parties and functions/events for some venues. Hire for these types of events are available at specific venues between specified times. Rates are itemised for each venue below where applicable.

Charity/not-for-profit

This category applies to groups that are either registered as a charity or not-for-profit organisation. This category does not apply to children's parties or functions/events.

Charity/not-for-profit rates are set at levels to support these groups using Waverley Council venues.

This category applies to all indoor venue hire.

Critical support services receive a 50% discount on the charity/not-for-profit rate. This category applies to all indoor venue hire.

Arts and education

This category applies to hirers of the Bondi Pavilion Theatre that are arts organisations, independent producers/artists and education institutions undertaking activity primarily for the creation and dissemination of cultural material rather than commercial outcomes.

Activities that are skewed predominantly towards commercial outcomes will attract the standard fees.

Production and Event Staff Charges

Minimum staffing charges apply in addition to the venue hire fee for Bondi Pavilion Theatre.

Public holiday penalty rates apply in addition to the Production and Event Staff Charges.

Explanatory notes

A three tiered banding structure is used to standardise the hire fees for rooms of a similar size that offer a similar level of amenity across all Council venues. The bands are community halls/large rooms, standard rooms and small meeting rooms.

All bookings are subject to availability and terms and conditions of hire.

Hire fees are for indoor venues only, use of parks and reserves must be hired separately (see Use and Hire of Public Open Spaces).

Hire fees for corporate, commercial and public events incur a 100% premium on private function/event rates.

Security bonds apply to all hires. Bonds are set between \$0-\$10,000 depending on the scale and the nature of the hire.

Bonds are fully refundable provided the Terms and Conditions of Hire are met in full.
