## WATCHING BEAMAFILM ON CHROMECAST

### Using the iOS/Android app

Download the Beamafilm app from the **Apple App** store or **Google Play** store.

Before you start casting, please ensure:

- Your smartphone or tablet is connected to the same WiFi network as your Chromecast device
- You are logged into the **Beamafilm app** on your smartphone or tablet with a valid library membership.

Tap the **"Cast"** button on the screen and select the Chromecast device that is connected to your television. Once the connection is established, start playing a film on the app and it will be played via Chromecast on your TV screen.

### Using a computer

Before you start casting, please ensure:

- You are using a Chrome browser on a computer that is connected to the same WiFi network as your Chromecast device
- You are logged into your Beamafilm account with a valid library membership

Click **play** on the film to display the video player options. The Cast icon will appear at the bottom right of the video player. Click the **Cast** icon, select your Chromecast device, and the film will start playing on your TV.

Please note that this icon will only appear when using a *Chrome browser*.

## CHANGING VIDEO QUALITY

Click the HD button on the bottom right corner of the player window and choose your preferred quality.

If the quality of the video is still low, this is likely due to your internet connection speed or multiple devices connecting to your WiFi.

## SUBTITLES & CLOSED CAPTIONS

Beamafilm offers over 150 foreign language titles with English subtitles hardcoded into the video. Closed Captions for English language titles are also available for selected films. To view films with Closed Captions Select 'View All' Subjects and filter by Closed Captions. To access the Closed Captions while a TV show or movie is playing, click the CC button at the bottom right of the player to enable captions if they are available.
