

## COMBINED PRECINCTS MEETING

### Waverley Council Response Report to Motions from December 2025 Combined Precincts Meetings

Meeting Date	Motion	Council Officer Response	Directorate	Status
<b>December 2025</b>	<b>Motion 1: The Combined Precincts request that as part of the current trial, Waverley Council investigate whether FOGO is causing an increase in rodents, foul smells and maggots in garbage bins – especially in unit block bin.</b>	FOGO is mandated by the State Government. Councils are required to implement it by 2030. Waverley Council is aiming have it implemented by 2027. Council is picking up bins weekly, and we have a very stringent agreement with Veolia. Feedback from the FOGO trial participants have been mostly positive and the instances of vermin issues relate to damaged bins with splits on the body or presented with the lids open. Council plans to replace all old garbage bins as part of the FOGO rollout in 2027.	Assets and Operations	Complete
	<b>Motion 2: That Council investigate improving the lighting in Flood Street on the footpath and pedestrian crossing, prune trees and improve the leveling of the footpath surrounding trees for pedestrian safety.</b>	The Infrastructure Services team is investigating options for additional lighting in Flood St. Please note this is relatively hard given the power is already underground in the vicinity and this adds complexity to installing further lighting. Funds have been added to the draft Capital Works Program for 2026/27 to undertake further works in the street. Works may include, lighting, further line marking, footpath repairs, tree pruning etc.	Assets and Operations	Complete
	<b>Motion 3: I move that the Combined Precincts put waste on the Combined Precincts Agenda generally as a standard matter for 2026 with update from Council and discussion from the Precinct.</b>	Director of Assets and Operations has agreed to do this moving forward.	GMU/ Assets and Operations	Complete
<b>ACTIONS</b>				
	MB asked about the hot water at Bronte Showers, noting they are not working.	Electrical problem was resolved 10/12/25. Hot Water Service has been restored.	Assets and Operations	Complete
