<p>October 2022</p>	<p>7.1 / 5a Broken pipe in sea wall beside ramp 4</p> 	<p>Precinct Chairman to take up with Council.</p> <p>PQ contacted Council's Community Liaison Coordinator on 7 February 2022 with this matter.</p> <p><i>I attach photo of open drain looking from ramp 4 south. I previously referred this matter about the drain being broken & this is how it was resolved. Originally it went below the sand level, to a degree that no water was visible. The drain collects water from the shower, situated on the promenade behind it. My query is, is it legal to allow water that comes from a shower can be directed on to the beach, where it pools & kids have been to play in it. If it is legal, I'm of the view it is not ethical & reflects poorly on Council. Can you please ascertain, what the legal position is. And if it is whether Council will apply its social conscience & close it. I look forward to hearing from you.</i></p> <p>CLC has raised matter with Executive Manager of Infrastructure, and the Executive Manager of Major Projects. This is being investigated as a priority.</p>	<p>Precinct / Assets & Operations</p>	<p>In progress</p>
