

Agonis flexuosa 'After Dark'

Purple leafed Willow Myrtle

Description

A handsome feature tree with dark purple or burgundy foliage. A cultivar of the more common native Willow Myrtle

Size

Medium sized native tree

Height: 4 to 6 metres

Width: 3 to 5 metres

Pruning: some early shaping required if growing as a single trunked tree. Minor pruning to minimize crossing branches

Features

- Weeping foliage with soft willowy appearance
- White flowers in late spring.

Uses

- Screening
- Feature tree
- Good contrast plant
- Street tree for drier conditions

Preferred conditions

Prefers full sun with extra moisture. Adaptable to a wide range of soils and part coastal tolerant
