

# Bike Share

## What is bike share?

A new way to travel in Sydney

Easy and cheap access to bikes via mobile apps

Thousands of people are already using it

It's popular across Sydney and growing fast

## Who is behind it?

### Private operators run dockless bike share

They've agreed to guidelines for safe and responsible operations

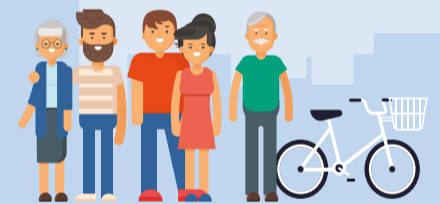

## Benefits of bike share

+ Convenient and easy to use

+ More people riding bikes helps to ease traffic and free up space on public transport

+ Bike share is popular for short trips to the shops, from the station and for weekend rides

## Tips

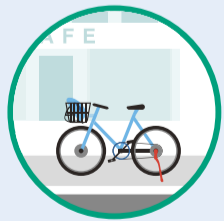

Ride safely, wear a helmet, follow road rules and don't ride on footpaths

Use the kickstand to park the bike upright

Park bikes near a bike rack or in a sensible place that doesn't block access for others

Bikes should be parked away from buildings so they don't pose a danger to people who are visually or mobility impaired

Report issues directly to bike share operators
