# Advance bookings open for new pavilion

The new Waverley Park Pavilion is due to open in the coming months. Council is seeking applications for advanced bookings from the community, including clubs and organisations who want to hire the new facilities on a one-off or longer-term basis, such as the sports court, community room and club room.

Applications will be accepted from 12 March until 2 April. Further bookings will be taken throughout the year, subject to availability.

Hourly, half day and full day rates are available Monday – Sunday for the sports court and community room.

■ For an application form and more information visit [www.waverley.nsw.gov.au/waverleyparkpavilion](http://www.waverley.nsw.gov.au/waverleyparkpavilion)

■ For general enquiries on the Waverley Park Pavilion call 9386 7917.

## Rooms for hire...

### INDOOR SPORTS COURT

Spectator seating has capacity for 50 people. The sports court will primarily cater for a wide range of sports and recreation activities with line markings in place for basketball, netball, futsal (indoor football) and volleyball. The sports hall will also cater for limited larger civic and recreational functions (eg. school presentations, awards ceremonies).

### COMMUNITY ROOM

The room seats a maximum of 120 people. The community room is available for groups for low impact classes (eg. yoga, tai chi and some forms of dance), meetings, conferences and training and for civic and recreational functions (eg. presentations, fund raising, AGM). There is an adjacent kitchen facility which is available for hire.

### CLUB ROOM

The room seats a maximum of 40 people. The club room will be predominately used by the sporting clubs in the evenings and weekends as part of their agreed licensees. The northern club room will be available to book in the summer for small meetings and classes.

## MAYOR'S MESSAGE

Since joining Council I have been well aware of residents calling for improvements in road and pedestrian safety, and the need for us to reduce our eco footprint and save taxpayers money.

I am pleased to announce that on becoming Mayor I have been able to initiate a number of projects to improve safety for road users and to reduce Council's greenhouse emissions.

On the issue of safety there will be up to 10 new pedestrian crossings across the Municipality and we are now proposing to establish 40km per hour safe traffic zones at Bronte Beach, Tamarama Marine Drive, and within Bondi Junction.

If NSW Transport agrees to the 40km zone they will also fund 50% of the cost of installing the traffic calming devices, saving ratepayers up to half a million dollars.

Another initiative is the proposed relocation of the cycleway from Oxford Street Mall to a newly constructed separated cycleway on Spring Street. The current situation, where the designated bike path traverses the Mall, is dangerous, especially to older people, and cannot continue.

With respect to our eco footprint Council recently signed off on the 10% Challenge, which compliments our existing commitment to energy and water saving improvements which will, not only improve the environment but, save ratepayers around \$147,000 per year, reduce electricity usage annually by 850,000 kilowatt hours, reduce Council's greenhouse emissions each year by 889 tonnes, and give us a yearly water saving of over 1500 kilolitres.

These are two sets of important initiatives which will make Waverley an even more enjoyable and desirable place to live and work.

**Mayor John Wakefield**

# Waverley's local heroes recognised

Mayor Wakefield announced the winners of the 2012 Waverley Local Hero Awards at Council's Australia Day ceremony earlier this year.

Graham Ford received the 2012 Local Hero Award for his ongoing commitment to the surf life-saving community Australia-wide, and to the Waverley community in particular.

This year there were two highly commended recipients. John Wright, a well known figure in the Waverley community, has volunteered his time for various organisations in the area, including as an active Justice of the Peace since 1955.

Peter McCallum received recognition for his contributions in a volunteer and professional capacity,

including providing tuition to Bronte Public School students since his retirement in 1999, after 17 years as principal of the school.

A new youth category was introduced to the awards and the achievements of Young Local Heroes Jenni Iloski and Zac Cherry were celebrated at the ceremony.

Jenni was awarded for her determination and persistence to set up the Greenlight Movement, a program to help young people living

in Bondi Youth Accommodation houses get their drivers' licences by pairing them with volunteer supervisor drivers. Zac Cherry was recognised for his volunteer work with St John's Ambulance over the past two years.

## New heritage listings for Waverley

**Council is pleased to announce the listing of over 180 new heritage items and nine conservation areas as part of Waverley's Local Environmental Plan.**

Waverley's heritage is diverse including buildings, monuments, Aboriginal places, gardens, landscapes, archaeological sites, streets and conservation areas. The Local Environmental Plan provides for the on-going protection and conservation of these areas.

Listing the additional heritage items and conservation areas involved years of heritage assessment, public exhibition of the plans, feedback from the community and working closely with the State government.

For property owners of heritage listed properties Council offers a free heritage advisory service for conservation and design advice. The Waverley Heritage & Design Awards which showcase outstanding heritage conservation and design and are held annually.

## Call for volunteers

# Help a young person reach their goal

**Bondi Youth Accommodation (BYA) is a specialist homeless youth service. It provides safe and secure accommodation and case management, to support youth to improve their own lives.**

Green Light Movement, a pilot project of Bondi Youth Accommodation, is a reduced fee, learn-to-drive program providing supervised driver training for young people who have experienced homelessness and do not have parent support to learn how to drive.

The idea came from former BYA client, Jenni – who together with BYA Coordinator Rebecca Mullins – set up the pilot program, gaining support from Mazda Foundation, Matana Foundation, Department of Juvenile Justice, Caltex (Bondi, Coogee, Rosebay, Kingsford, Randwick), Bendigo Bank (Clovelly), Waverley Council, Randwick Council, Souths Juniors and Sydney Credit Union.

In NSW a young learner driver must complete 120 hours of supervised driving before being able to sit for their provisional driver's licence. Most young people learn to drive with parents and family members.

However, for young people, who are unable to live at home (without

*“Volunteering with the Green Light Movement was a constructive way to help young people in the area. It was well supported by BYA which made it easy for me to get on board.”*

MALE VOLUNTEER

family support), learning to drive is a challenge – if not impossible.

Green Light Movement provides 10 hours with a professional driving instructor, spread out over the required 120 hours of 'on road' supervision. Each young person is also linked with a volunteer 'supervising driver', to supervise the remaining hours.

Volunteer 'supervising drivers' are key to giving young people the opportunity to learn to drive. Two hours a week will support a young person to reach their goal.

Green Light will provide the car, interactive workshops and ongoing support. To volunteer all you need is a manual driver's licence.

■ If you are interested in becoming a supervising driver, please contact Jenni Iloski on 9389 7453 or [greenlightmovement@bya.org.au](mailto:greenlightmovement@bya.org.au)

## Sponsor a Bravehearts Adventure

Would you paddle across Bass Strait in a kayak? Probably not. But you can support a Bravehearts adventurer and help realise Bravehearts' mission to empower, educate and protect Australian kids.

Bravehearts Inc. actively supports and advocates for the rights of children and families impacted by sexual assault, and offers an education and prevention program to school children nationwide.

Every \$10 sponsored to a Bravehearts adventurer is one child's access to the Bravehearts program that teaches them life-saving personal safety.

For more about Bravehearts Inc., Bravehearts Adventures and how to donate, visit [www.braveheartsadventures.com.au](http://www.braveheartsadventures.com.au).

Following the wettest summer on record we enter Autumn with the majority of our open space green and lush. Obviously, our staff have had a difficult time in keeping our open space well presented during the wet season.

As detailed in this issue of Waverley in Focus the new Waverley Park Pavilion will be opening soon. I have received many comments from local residents in regard to the appealing nature of this new facility and in particular its minimal impact on view corridors. I am confident that this new community facility will generate much interest when it opens to the public.

Another major piece of community infrastructure is nearing completion at Bondi Junction with the construction of the Early Learning & Care Centre at the corner of Ebley Street and Lawson Street. When opened in July the new centre will provide important affordable child care places for the community of Waverley.

Waverley Council continues to celebrate Seniors Week each year and I encourage residents to participate in the numerous activities detailed in this addition. There is also an extensive school holiday program planned for the Easter Holidays and these details can be accessed on Council's website.

## Camp Kidpreneur @ Bondi

The first ever Camp Kidpreneur was held in January as part of the Library's jam-packed summer holiday program.

A joint project with Kidpreneur creator Creel Price, the three-day program gave kids hands-on experience in starting a business to develop and sell a product.

On the final day the young entrepreneurs sold their creations at Paddington Markets.

The mother of one participant wrote in a local media column that the program was a "sensational conclusion to the school holidays" and said she was delighted to see her daughter "bursting at the seams to keep her business going".

## Game jammers rock!

January saw our inaugural 'Library Game Jam' – in support of the Global Game Jam event, where 'jammers' meet at venues across the globe to create new computer games in a 48-hour non-stop hothouse of talent.

The two-day weekend workshop for 14 to 17-year-olds was supported by mentors from the University of NSW Computer Science & Engineering faculty, who expertly guided the youngsters through the game design process in a fun, interactive way.

Thanks to the University of NSW and State Library of NSW for helping us set up such an innovative event. Hope to see you again in 2013!

## Kidzflicks

Last year Waverley Library and Bardic Studio organised the first ever KidzFlicks Sydney Festival of Films by Children and Young People.

Filmmakers aged 12 and under were invited to enter a competition which ended with a day of games, fun and screenings of all entries at Event Cinemas Bondi Junction in January.

Judged from over 130 entries, a beautifully shot documentary by students from Kambala School took out Best Overall Film. Best Independent Filmmaker was Maddison Stephens for her film *The first sleepover* and Best School Submission went to Camdenville Public for their hilarious animation *Murder on the Dance Floor*.

## Waverley Library Annual Photographic Competition and Exhibition

Thank you to everyone who entered the competition, which had the theme of 'Waverley and its architecture, people, places, parks or beaches'.

Well done to **Donald Ross** who won the \$500 first prize with his photo of a couple at a local café.

## Forever Fabulous

photographic exhibition

Forever Fabulous showcases some of our most active seniors, who truly capture the spirit of living life to the full. In a celebration of their achievements, these 'Forever Fabulous' models feature in a photographic exhibition on the Oxford Street Mall throughout Seniors Week and until 17 April.

### Don't leave me this way!

Council is working with key stakeholders in the final stages of implementing a system to eliminate the problem of dumped shopping trolleys within the Waverley area. In the meantime, we encourage residents to use a wheelie trolley; take advantage of home delivery; or return your trolley to the shop.

### Goodbye graffiti

The graffiti wipe-out program has been very successful, with local businesses taking an active part in 'wiping out' graffiti from their premises – using special wipes provided by Council. For more information please contact the Bondi Junction Town Centre Management Office.

### Business activity report and retail vacancy

Council has conducted a survey of over 760 ground floor level businesses in the Bondi Junction LGA. A full report will outline the vacancy rates and comments made, with results available on Council's website in April. Thank you to all who took the time to complete the survey.

### Looking good on Macpherson

To promote a cleaner, greener streetscape, Council – with local shop owners including Three Blue Ducks and Iggy's Bread – have placed planter boxes filled with herbs, flowers and citrus trees on Macpherson Street for all to share.

Thank you to the local businesses for taking ownership and being accountable for the maintenance of this joint project.

## Early Education Centre on track to open in July

**Waverley Mayor John Wakefield attended a site inspection for the new Mill Hill Early Education Centre in February with Council officers.**

Work is progressing with nearly 80 per cent of the construction complete. "The next stage will see the commencement of internal fitout and landscaping works," said Mayor Wakefield.

Council received \$1.65 million under the Federal Government's Additional Early Learning and Care Centre Funding Package for the project with a budget for demolition and construction of \$4.177 million. The centre has been designed by architects Baker Kavanagh Pty Ltd.

The new centre will provide family and children's support services such as a baby health centre and parent education groups. An official opening will take place in July.

# Grow it Local in Waverley

Council has thrown its support behind a new initiative, **Grow it Local**, celebrating locals who make the most of their little patch – be it a pot on the balcony, a square of dirt in the backyard or a community garden – and do their bit to reduce food miles and greenhouse emissions.

The project is a great fit for Waverley Council's Environmental Action Plan target to achieve reductions of the community's greenhouse gas emissions by 30% in 2020 based on 2003/04 levels. The same plan recognises the importance of getting behind projects that celebrate positive environmental behaviours and sustainability.

Grow it Local invites anyone in the LGA growing their own food, on any scale, to register their little (or big) patch online and share photos and gardening tips on Facebook. The first 30 participants to register can then come along to Bondi Markets on Saturday 31 March with their Grow it Local bag filled with their home-grown produce to have it cooked by local chef Grant LaBrooy from Three Blue Ducks at a community lunch.

*Clockwise from left, back row: Grant LaBrooy (Three Blue Ducks), Mayor John Wakefield, Costa Geordiadis (ABC TV's Gardening Australia), Darryl Nichols (Garage Sale Trail) and Andrew Valder (from Grow It Local)*

Grow it Local is run by the same team behind Garage Sale Trail, a project that started out as an idea to hold garage sales on the same day across the Waverley LGA.

Registrations are open until 28 March.

## St James edible garden takes shape!

The St James Pocket Park group came together for a working bee in early February to commence their edible garden project at their pocket park.

Tasty herbs including rosemary, oregano, mint, basil, lemongrass, sage and thyme as well as lavender were planted in the existing garden bed to demonstrate community gardening and food production in open space.

This local pocket park group has been working with Council since 2009 and has been involved in various projects at the park including community composting. The residents continue to be actively involved in maintaining the great look and feel of this pocket park and are a great example of neighbourly spirit!

## Plastic shopping bags – do you recycle yours?

Did you know Australians still use over 3.9 billion plastic checkout bags a year. That's 10 million a day!

But only 3% of those plastic bags are being recycled, despite recycling facilities being available at major supermarkets and retail outlets.

Used plastic checkout bags can be taken to participating supermarkets for recycling. The bags are collected in bulk then compacted into large blocks ready for further processing and conversion into raw material to make recycled plastic products.

**Remember!** Please keep plastic bags out of your home recycling bin, as they can cause big problems when placed in your kerbside recycling bin.

## We're tops in compost!

It's official. Sydney's eastern suburbs celebrate International Compost Awareness Week better than anyone.

On 12 May, local compost champions will get together with their neighbours to teach the art of composting and wormfarming.

Since last year, over 1000 Waverley, Randwick and Woollahra households joined the compost revolution – attending workshops and receiving free compost bins and wormfarms. And a recent survey shows that over 95% of these households are still composting today.

That's over 200 tonnes of food waste recycled every year in eastern suburbs backyards.

## LED streetlighting trial in North Bondi

Waverley Council is working with AusGrid in a trial of light emitting diode (LED) streetlights in Ramsgate Ave East in North Bondi. Streetlighting is a major contributor to Council's greenhouse gas emissions. LED technology has the potential to save up to 75% in energy consumption compared to current lighting technology and has been identified as one way for Council to reduce its emissions footprint.

The LED streetlights just installed require only 28 watts of power and will be able to replace mercury vapour streetlights that draw 96 watts of power. The trial will assist Council in evaluating this technology in Australian conditions, such as the constant salt spray at Bondi.

■ If you have any feedback on the lights and their quality please email [environment@waverley.nsw.gov.au](mailto:environment@waverley.nsw.gov.au)

Waverley Council staff gathered together for the Business Clean Up Australia Day on a hot day at the end of February, giving Tamarama Park a spruce up. Staff and Councillors donned their gloves and got to work collecting litter and doing light weeding in the upper part of the gully. They collected 25 bags of recycling, garbage and green waste, plus one old tyre.

On Sunday 4 March, 21 sites registered in Waverley for the official Clean Up Australia Day, with divers scouring the sea floor and abseilers trawling the ocean cliffs for rubbish. Many thanks to the hundreds of residents, students and workers who helped in the clean up.

## Travel actively to school

Waverley Council is supporting schools' participation in two national events that encourage students and teachers to actively travel to school – by providing a healthy fruit breakfast for those taking part.

### National Ride to School Day

Friday 23 March

Parents and teachers are encouraged to leave the car at home and get students riding, walking, skating or scootering to school.

**REGISTER** your school for promotional stickers, posters and a 'how to' guide at [www.bv.com.au/general/ride2school/](http://www.bv.com.au/general/ride2school/)

### Walk Safely to School Day

Friday 18 May

This annual national event sees all primary school children encouraged to walk and commute safely to school.

**REGISTER** at [www.walk.com.au](http://www.walk.com.au)

Make sure your school contacts Carolyn New on 9369 8206 for a healthy fruit breakfast and to book a visit from Bee Safe Buzzy Bee.

## Have your say!

Waverley's precinct meetings are a great way to get involved, meet your neighbours and have a say! The committees are run by residents with the help of Council. Relevant issues are regularly forwarded by Council to the precincts and they also discuss issues of interest or concern in their local area.

## Dealing with e-waste

E-waste is the term for electronic or electrical waste – basically anything with a battery or a plug. It's a huge problem in Australia, where 75% of the three million computers bought every year end up in landfill.

Waverley Council has run e-waste collection days twice a year since 2006. To date we have diverted approximately 172 tonnes of electronic waste from landfill to be recycled (in 2010 and 2011 as joint collections with Woollahra Council).

■ For more information visit the Waverley Council website or call Council's Waste Education Officer on 9369 8242.

## Join the trail

Did you know there are 7.4 million garages in Australia. What if every one of them had a garage sale on the same day? That's the idea behind the Garage Sale Trail, the exciting event happening in our local area on Saturday 5 May 2012.

Garage Sale Trail is a great way to promote recycling and sustainability, bring local residents together and have a bit of fun. Waverley Council has been supporting this event for the last two years and if previous events are anything to go by, there will be pop-up record stores, art shows, bike sales as well as your classic clothes and bric-a-brac sales. To see what went down last year, check out the video at [www.garagesaletrail.com.au](http://www.garagesaletrail.com.au).

This year the Garage Sale Trail team is encouraging community groups, schools and clubs to get involved as well as individuals to use the opportunity to bring your club members together and raise funds for their organisation.

■ If you would like to hold a garage sale on 5 May 2012, register your sale at [www.garagesaletrail.com.au](http://www.garagesaletrail.com.au) from 13 March 2012.

**It's completely up to you to choose your sale's theme – so get creative!**

## Switch off for Earth Hour

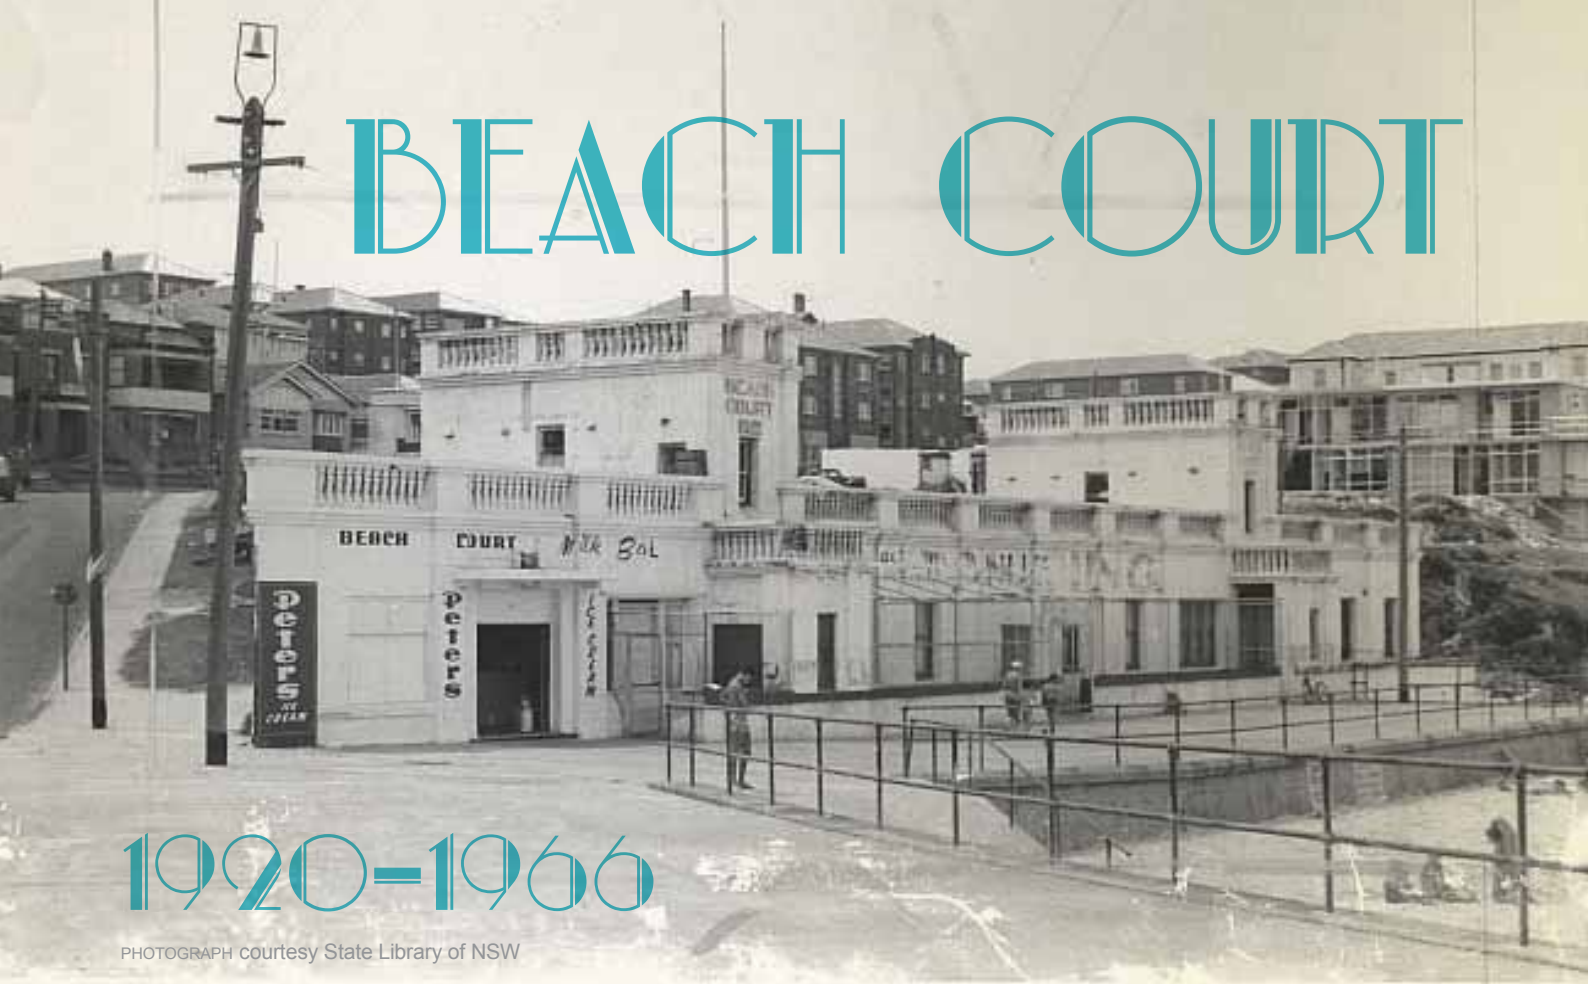

As the birthplace of Earth Hour, Australia has embraced the event as an annual celebration of the planet since its inception in 2007.

On **Saturday 31 March at 8.30pm** everyone is encouraged to switch off their lights and appliances for an hour to raise community awareness on climate change.

But remember, Earth Hour is not just about saving an hour's electricity, it's about uniting people to protect the planet. And the best thing? Each one of us can be a part of it.

To find out more, or register for Earth Hour, visit [www.earthhour.org](http://www.earthhour.org)

# BEACH COURT

## 1920-1966

PHOTOGRAPH courtesy State Library of NSW

In 1920 Beach Court was built on the corner of Ramsgate Avenue and the Bondi Beach promenade at North Bondi. With its beautiful location right on the beach, this complex of flats, refreshment rooms and a dance hall became a popular local venue.

Tiny's Dance Hall opened in Beach Court soon after the building was completed and initially it had quite a respectable reputation. Beach Court's reputation started to slide in 1932, with new owners Alexander Ernest Anderson, notorious criminal dentist Freddie Goldsmith and the 'flamboyant' medical practitioner Dr Reginald Stuart-Jones.

During the 1930s Stuart-Jones was involved in numerous illicit businesses, including illegal gambling (particularly horse race 'fixing'), sly grog and drug dealing – partnered in these various activities by Sydney's most infamous criminals. He was known as 'the Doc' and many were grateful for his discreet treatment following gun battles. One of Stuart-Jones' companies was ominously named Terminal Investments.

In late 1932 Freddie Goldsmith, on behalf of Alexander Ernest Anderson advised that he had changed the name of Beach Court to 'The Lido' and (unsuccessfully) applied to

Council to build dressing cubicles on the property.

They turned the Dance Hall into a nightclub and at The Lido patrons could expect after-hours alcohol, drugs and access to prostitutes. Later, during World War II, it became a popular place for visiting American servicemen to let their hair down.

In the early hours one morning in December 1932, The Lido was raided and 37 people were arrested including the manager, Leo Mandrell, who was charged with selling alcohol without a licence. The raids continued and so did the late night revelry, with the club advertising 'special decorations, cabaret and an a-la-carte menu' at its all-night New Year's Eve party to welcome in 1934.

The premises became so notorious that surf life saving clubs banned their members from going to The Lido in their club blazers, believing it brought the surf clubs into disrepute.

By the late 1930s Beach Court was coming to the attention of Waverley Council, who began agitating for the owners to exercise more control over their customers. If they didn't

do this, the Council warned, they would close The Lido.

The nightclub continued until the mid-1940s, briefly known by other names such as The Mirrors and The Palms.

Beach Court survived its racy period. In later years it was better known for its community meeting rooms and beachside kiosk, Tiny's Café, which provided food to hungry beach goers at the northern end of Bondi Beach.

In 1957 the community meeting rooms were hired by a group to discuss the formation of a rugby league club for the eastern suburbs. The club was formed and the Eastern Suburbs Rugby League Club began operating from Thursday to Sunday at Beach Court, moving to the first floor of the Bondi Pavilion the following year.

It was also the first home of the Bondi Boys' Club which itself also later moved to the Bondi Pavilion.

Waverley Council bought Beach Court in 1958/59, it was demolished in 1966 and the site is now occupied by the North Bondi park Biddigal Reserve.
