## Recognising our local heroes

*Local Hero Award Winners with Member for Coogee, Bruce Notley-Smith (left), Member for Vacluse Gabrielle Upton (far right) and Mayor Sally Betts (second from right).*

**Waverley is a great place to live because of the amazing people in our community. Council honours those who make an outstanding contribution to our community through our annual Local Heroes Awards.**

This year's winners were announced at a ceremony on Tuesday 5 February at Margaret Whitlam Recreation Centre. Rabbi Dovid Slavin won the title this year for Local Hero of the Year, and John Williamson Fox received a certificate of achievement for his substantial contribution to our community. Our Waverley Young Hero of the Year 2013 is 18-year-old David Chan.

Rabbi Dovid Slavin is a well known local figure and founded Bondi's Our Big Kitchen, a community

kitchen where food is prepared for those less fortunate. The 'big kitchen' is all about bringing the community together, and anyone who wants can go in there to cook and prepare food.

David Chan's passion, drive and administrative capabilities were instrumental in pioneering and developing numerous Sydney Boys High School community outreach programs.

John Fox was awarded a certificate of achievement for his marvelous contributions to the Waverley community through his extensive volunteer work with young people and the Bondi Skate Park.

**Congratulations to our winners and thank you for the contribution you make to our community.**

## MAYOR'S MESSAGE

There is a number of big projects happening around Waverley at the moment and 2013 is shaping up to be a really productive year.

We are pleased to have reached the next stage of the Bondi Plan of Management. Three commissioned design professionals took part in a Design Workshop with Council's Open Space Planning team. Concept plans are being developed and will be put to the community for comment from April in preparation of the Bondi Park, Beach and Pavilion Master Plan.

It's very exciting that these designers have a chance to have into the future look and feel of our iconic Bondi Beach, Bondi Park and Bondi Pavilion.

We are finalising the concept design for the Stage 2 and 3 improvements for Bondi Road which is on the south side from Avoca Street to Denham Street and on the northern side from Penkivil Street to east of Wellington street.

Waverley, Woollahra and Randwick Councils will be hosting the Eastern Suburbs Cancer Council's Relay for Life on May 18 at McKay Sportsground, Centennial Park. The event starts at 9.30am so please join us in showing our support for being proactive in the fight against cancer.

Relay for Life is a community event for people of all ages, and from all walks of life who have lost a loved one to the disease.

I'll be there on the day with my team the Mayoral Mavericks, so if you are unable to attend the event, please show your support by sponsoring us. For more details about the event, to register a team, or sponsor a team go to [www.relay.cancercouncil.com.au/2013/eastern\\_suburbs\\_2013](http://www.relay.cancercouncil.com.au/2013/eastern_suburbs_2013)

The first of our 'Meet the Mayor' events will be taking place on March 24 in Hunter Ward. Please come along and join us for a cup of tea and a chance to meet your ward Councillors and talk to us about what matters to you in your neighbourhood.

If you can't make it on the day, you can always tell us about your issues or concerns by calling our Customer Service Centre on 9369 8000 or via email [info@waverley.nsw.gov.au](mailto:info@waverley.nsw.gov.au)

# Portable lifeguard towers a welcome addition

As a measure to further increase safety at our beaches, Waverley Council installed portable lifeguard towers at both North Bondi and Bronte Beaches in January. Both towers are fitted with first aid kits, oxygen and defibrillators, and can be moved according to conditions and events.

The decision to trial the towers was made unanimously by Council in July last year to improve observation and provide excellent presence for the public while having minimal impact on amenity.

It's been another busy summer for Council. This summer saw the hottest day on record for Bondi Beach, with temperatures reaching 44.9 degrees on Friday 18 January. We have also had extremely rough conditions and high winds on more than one occasion. Well done to our lifeguards for keeping people as safe as possible in such extreme conditions. A special thanks also goes out to our tree team, who work tirelessly following storms in the LGA to remove tree branches and make areas safe and tidy.

Council has been working on improvements to ovals 2 and 3 of Waverley Oval. The ovals are used all the time by local sport teams and are an important resource for the community. We totally rebuilt these two ovals, which included re-levelling the field, soil conditioning, installation of a new irrigation system and connecting it to the new water harvesting system at Waverley Pavilion. Both fields also had new turf laid and new goal posts installed. I'm really happy with the improvements. Thanks to our staff who worked hard to get the work done.

We are in the final stages of developing our updated community strategic plan *Waverley Together 3*. The community plan is your plan for the future, outlining the direction you want Council to work towards over a ten year period. Council has been consulting with a panel of residents since November to update the plan. This consultation process is now complete and Council is currently drafting *Waverley Together 3*, which will be on public exhibition in May.

You will have 28 days to make comment on the document, which will be considered before it is finalised and adopted by Council. Thank you to those residents who put their hands up to be part of the consultation, your feedback is appreciated and has been an integral part of this process. The consultation feedback has not only gone into *Waverley Together 3*, but will also be reflected in our *Delivery Plan* and *Operational Plan*.

## Community liaison vehicle

**NSW Police launched our community liaison vehicle on Friday 8 February. As part of this exciting program, Waverley Council has provided a vehicle for the Eastern Suburbs Local Area Command.**

The car will be mainly used by the Crime Management Unit including the Crime Prevention Officer and Youth Liaison Officer and will have huge benefits for our community.

Waverley Council maintains an excellent relationship with our Local Area Command. It is important that we continue to nurture and

develop this partnership in order to maximise the best crime prevention outcomes for our community.

This new police vehicle is an excellent example of us working together to strengthen our partnership and show our mutual commitment to providing a safe and comfortable environment for our residents and visitors to enjoy.

Look out for the vehicle which you will be able to spot at some of our community events in the future such as City to Surf.

# WHAT'S GOING ON?

## Waverley's Commercial Activity

**Council does biannual audits of all ground floor properties for lease in the Waverley LGA to provide an indicator of the economic health of the LGA.**

The audit notes if the property is occupied and the type of businesses being conducted. Ground floor commercial activity is reliant on adequate visitations (dollar spend), strong infrastructure, accessibility by foot, public transport and/or parking. A measure of ground floor commercial activity is recognised as a good indicator of economic activity in a commercial centre as a whole. The mix of tenants in commercial areas indicates market trends as well as the needs of the local community which they service.

The results of the latest audit are below. This audit was done by Council's Place Management (Commercial Centres) in late January 2013.

## Our new garbage compactors take to the roads

**Council has recently had the first of eight new garbage compactors delivered. The remaining seven are due to arrive over the coming weeks.**

The Mercedes Cab Chassis are Euro 5 EEV, which means they are at the cutting edge of environmentally friendly technology. Euro 5 EEV is approximately 30 per cent cleaner than the Euro 5 standard. The truck features a flexible service system, that reads how much work the truck has done and schedules the component services accordingly. This means the truck does not waste any oil or other lubricants by having them replaced too early and less petroleum product waste.

Safety wise, they feature all wheel disc brakes with ABS and ASR (traction control), roomy cabins and excellent visibility with extra cameras for the driver, a speed limiter and a low entry cabin to make it easier to get in and out.

We are proud to say Waverley is the first to use this cab chassis in Australia as a waste and recycling collection vehicle.

Keep a look out for them as they come to a street near you!

# Dumping is dumb

**Illegal dumping is the unlawful disposal of waste on public or private land. The most commonly dumped items in NSW include household whitegoods, furniture, household garbage as well as construction and demolition waste. It is estimated that NSW Councils' spend an average of \$400,000 per year in clean-up and disposal of illegally dumped rubbish.**

Dumped rubbish creates an eyesore, often generates more dumped rubbish and litter, causes stormwater pollution, attracts vermin, can block access and cause a trip hazard and fire risk. Many items that could be reused or recycled are lost.

But it doesn't have to be this way!

All Waverley residents are entitled to two free 'Your Call collection' services each year. Council also provides an additional free scheduled clean up collection. This means that Waverley households can get three free pickups per year.

To book in your free clean up service or find out when your next scheduled collection is, simply call Council's Resource Recovery Hotline on **9369 8000** or go to [www.waverley.nsw.gov.au](http://www.waverley.nsw.gov.au).

Already in 2013, Council has investigated 121 dumps, given 80 verbal warnings to rubbish dumpers, and issued six infringements. You can help Council keep our streets clean by calling **9369 8000** if you see someone dumping rubbish on your street. Our Waste Enforcement Officer will come and investigate!

# Waste & Recycling Survey wraps up

A big thank you to all of our residents who participated in our recent Waste & Recycling Survey.

We had a significant number of responses and are working hard to sift through the many comments and suggestions about how we can improve our services to meet your needs.

We'd also like to congratulate the winners of the two great prizes on offer for completing the survey:

- **Paul Szabo** will take home the double pass for the Tamarama Rock Surfers 2013 season
- **Jill Sale** will receive a \$100 Westfield Bondi Junction gift voucher.

We will keep you updated on our website with the outcomes of the survey and how these may influence the delivery of waste and recycling services in Waverley.

# Securing a water sensitive future

**Waverley Council's Mayor Sally Betts formally declared the new Bondi Stormwater Harvesting Scheme open on Friday 14 December, 2012.**

Council was successful in securing a grant of \$465,000 from the NSW Government's Climate Change Fund, to construct an innovative stormwater harvesting and re-use scheme at Bondi Beach, which will save 50 million litres of drinking water annually.

The Bondi Stormwater Harvesting Scheme is a water recycling scheme which uses stormwater currently discharged at the southern end of Bondi Beach to be used for park irrigation across Bondi Beach and the toilets in Bondi Pavilion and in South Bondi Park.

The scheme includes a solar energy power plant which is installed on the roof of Bondi Pavilion, providing green energy for the carbon neutral operation of the scheme. Its operation is fully automated with intelligent water quality monitoring and measurement and will be operational 24 hours a day, seven days a week.

By using recycled water, we are saving precious drinking water, reducing greenhouse gas emissions, saving money and improving water quality at Bondi Beach.

The Bondi Scheme is a flagship stormwater harvesting project progressing Waverley towards a water sensitive future.

■ For more information about the scheme visit [www.waverley.nsw.gov.au/bondistormwater](http://www.waverley.nsw.gov.au/bondistormwater)

## Waverley Together 3 – your community plan

**Council has been consulting with a panel of residents about how we can improve your community long term plan, *Waverley Together 2*.**

The consultation process is now complete with residents attending three panel sessions between November 2012 and February 2013. Thank you to those who attended, your feedback has been invaluable in this process. A summary of the outcomes of these sessions is available on Council's website.

The next step is the development of *Waverley Together 3*, which Council is currently drafting. Community feedback is being included in *Waverley Together 3*, our draft *Delivery Program* and *Operational Plan*.

These documents will be on public exhibition in the coming months. You will have a period of 28 days to submit comments, which will then be considered by Council before each is adopted.

# Library News...

## Sharing the love @ Waverley Library

Free chocolates put a smile on many a face at Waverley Library on Library Lovers Day. Those whose idea of love also involves favourite books and thought provoking speakers were well catered for in the week-long festivities.

Mayor Sally Betts with the 2012 NIB award winner Jane Gleeson-White.

## The NIB 2012

The Waverley Library 'Nib' Award for Literature is a prestigious award that attracts entries from authors across Australia.

Here, 2012 winning author of *Double Entry*, Jane Gleeson-White, describes the difference the 'Nib' has made to her literary career:

"I was excited 'just' to be shortlisted for the Nib Waverley Library Award for Literature, because I've always admired the award and the calibre of its shortlists and winning books. At a time when writers are increasingly under pressure to produce books as fast as possible, to take shortcuts, write superficially, in order to stay afloat financially, an award which values and rewards research seems to me extraordinarily important.

"And so I was beyond excitement when I was told that *Double Entry* had actually won the award. The \$20,000 I won will allow me to continue writing, to work on my next book and to keep promoting *Double Entry* in the UK, Europe and the United States, where it's just been published. It is every writer's dream: acknowledgement of one's work and the money to buy the time to keep writing.

"I am grateful beyond measure to everyone involved in the Nib and this year in particular to Waverley Council for keeping it going when the major sponsor withdrew its support."

The Nib Literary award supports excellence in research, literary merit, readability and value to the community and was proudly sponsored by Waverley Council with the support of Friends of Waverley Library, Gertrude & Alice Bookshop and Cafe, and Dymocks Bondi Junction. More information about the award including all finalists and judges comments can be found on Waverley Library's website.

Mayor Sally Betts helping children distribute chocolate hearts for Library Lovers Week.

It was an appropriate time to celebrate *Pride and Prejudice's* 200th year of publication with author, lecturer and president of the Jane Austen Society of Australia, Susannah Fullerton, launching her new book *Happily Ever After: Celebrating Jane Austen's Pride and Prejudice* at a special Library event. Susannah spoke about how her work examines the revolutionary style of *Pride and Prejudice*, the famous characters, the wide-ranging reactions to the book and the unusual interpretations of it (zombies!). Wine and very elegant nibbles completed the scene for the evening.

This year is also the Friends of Waverley Library (FOWL) 20th anniversary. This group works tirelessly behind the scenes to promote the Library and to raise funds for many of the public programs and events the Library offers. On Sunday 24 February, as part of their AGM, the Friends presented a special address by The Hon. Michael Kirby AC CMG. The former High Court Judge, and Foundation Patron of Friends of Libraries Australia from 1994 to 2010, gave a fascinating and insightful reflection on books that have influenced him throughout his life. It was a warm and passionate speech that touched on issues of significance to us all.

## Waverley's convict councillor

### The builder and first licensee of the Charing Cross Hotel was London-born William Newland.

In 1826, aged 19, he was tried at the Old Bailey court for theft and selling stolen goods and received a sentence of transportation to Australia for seven years. On the way here his ship stopped in Bermuda and he spent over two years of his sentence in the tropics. Convict records describe him as "5'1" tall, ruddy freckly complexion, light brown hair, hazel eyes with tattoos on both arms". He arrived in Australia in 1830 and gained his freedom three years later.

In 1839 he married Frances (Fanny) Ruttel in St James Church in Sydney. Irish-born Fanny was a free woman working as a servant in a Sydney household. They had a large family of 10 children many of whom died in infancy, a sad, but common, fate at this time. Their children were: Frances, Michael, John, Christopher, Philip, Eleanor, William, Jane, Florance and Edward.

William Newland borrowed £600 from the Saving Bank of NSW to build the Charing Cross Hotel which he opened in 1857. As public halls were in short supply in these early days, a large room on the second floor of the hotel was popular for holding meetings, including the early meetings of Waverley Council.

The hotel was initially known as Newland's Hotel and Newland's Inn. In 1859 when the Council applied the name Charing Cross to the locality the hotel was re-named the Charing Cross Hotel. Although it has been completely renovated, with none of the original building remaining, the Charing Cross Hotel still sits on its original site.

William and Frances were highly thought of and the hotel had an excellent reputation. Now a prominent local businessman William Newland became a member of the first Waverley Council in 1859–1860.

In an article in the newspaper *Eastern Suburbs Daily* on

11 November 1924 one of Charing Cross's oldest residents, Henry Brailey, recalls the hotel:

"This is a fine pub – built of stone, two stories high, erected and kept by William Newland, afterwards an Alderman of Waverley.... It was a very well conducted [public] house, with a fine room over the bar, used as a Council room by the Waverley Council, by [Masonic] lodges, and public meetings. There was a large family of the Newlands... who were a credit to their parents."

Frances Newland died in 1896, 13 years after her husband William.

It is a classic Australian colonial story: William Newland arrived in Australia in chains, yet went on to build the Charing Cross Hotel and found respectability as a member of the first Waverley Council. What a journey! Today the Charing Cross Hotel still stands and Newland Street, Bondi Junction remembers the convict, his wife and large family.
