Coffin burial information

For coffin burials, the following information must be provided by the funeral director:

The measurements given below must be the exact outer dimensions of the coffin as the grave is dug to this size. This includes any rigid/collapsible handles at their widest 'open' point.

To ensure the maximum use of the burial allotment, we recommend only flat lid traditional shaped coffins are used for every interment. If other styles of coffin are used this will limit the number of future interments or monumental work requiring foundations.

Please provide coffin dimensions below in millimetres.

Width (including handles): _____ mm Length: _____ mm Height: _____ mm

Combined weight of the deceased and coffin: _____

Funeral Director – I hereby confirm the above coffin dimension details are correct.

Name of funeral director: _____ Signature: _____

Religious, Cultural, Aboriginal Requirements

Please identify any specific religious, cultural or aboriginal requirements that Waverley Cemeteries needs to be aware of.

We will attempt to satisfy any request if it is practicable to do so and doing so aligns with all relevant laws, including work health and safety obligations. This principle does not require the dedication of land or the erection of structures.
